Unbudgeted Expenditure – Orawia Hall

Record No: R/20/9/51896

Author: Mark Day, Community Facilities Manager

Approved by: Matt Russell, Group Manager Services and Assets

☒ Decision

☐ Recommendation

☐ Information

Purpose

- 1 The purpose of this report is to request unbudgeted expenditure of \$1,842.74 to undertake building work in preparation for interior painting at the Orawia hall.

Executive summary

- 2 This is preparatory work around the steel columns in the supper room area of the hall prior to the room being painted. This work is not in the annual plan however staff have agreed to this work being undertaken in conjunction with the Tuatapere Te Waewae community board.

Recommendation

That the Tuatapere Te Waewae Community Board:

- a) receives the report titled “Unbudgeted Expenditure – Orawia Hall” dated 12 October 2020
- b) determines that this matter or decision be recognised as not significant in terms of Section 76 of the Local Government Act 2002
- c) determines that it has complied with the decision-making provisions of the Local Government Act 2002 to the extent necessary in relation to this decision; and in accordance with Section 79 of the act determines that it does not require further information, further assessment of options or further analysis of costs and benefits or advantages and disadvantages prior to making a decision on this matter
- d) approves the unbudgeted expenditure of \$1,842.74 to be funded from the Orawia Hall Reserve.

Background

- 3 The members of the Orawia hall group are a very proactive and progressive group who work to provide a community hub within the Orawia hall.
- 4 The group fundraise each year to put on an event for the community to encourage the connection between the locals and the transient component of their community.
- 5 Recently the group agreed to become a sub-committee of the Tuatapere Te Waewae Community Board so they have a formal arrangement with Council to manage the hall. This arrangement is yet to be ratified.
- 6 The group have identified with staff a number of projects that they want to undertake to maintain the hall to a high standard. This is one of these projects.

Issues

- 7 Remedial work needs to be undertaken prior to the interior painting being undertaken.

Factors to consider

Legal and statutory requirements

- 8 There are no legal and statutory requirements.

Community views

- 9 Council staff have been working with the Orawia hall group to formalise them as a sub-committee of the Tuatapere Te Waewae community board and look at projects that they want to undertake.
- 10 Members of the Tuatapere Te Waewae Community Board have also met with the hall group and once the sub-committee is formalised they will have a member on that sub-committee.

Costs and funding

- 11 The unbudgeted expenditure will be funded from the Orawia Hall Reserve that currently has a balance of \$28,808.00 as at 30 June 2020.

Policy implications

- 12 There are no policy implications.

Analysis

Options considered

- 13 The options considered are to fund the unbudgeted expenditure in line with the scope.

Analysis of options

Option 1 – Approve the unbudgeted expenditure of \$1,842.74 to be funded from the Orawia Hall Reserve

<i>Advantages</i>	<i>Disadvantages</i>
<ul style="list-style-type: none">the hall is kept in a well maintain state.	<ul style="list-style-type: none">the condition of the hall will deteriorate.

What's happening in your area

Community Partnership Fund

The first round of the Tuatapere Te Waewae Community Partnership Fund closed on 31 August. Eight applications were received and the community board will be formally allocating the funding at their meeting on 19 October.

Of the four community partnership funds that have closed to date, those community boards have received five to twelve applications.

A theme which has started to come through is the alignment of closing dates with community activities. Some closing dates do not align well with key community events and sports seasons. This has been a good learning for the community boards and accordingly some community boards are considering changing their closing dates for the next financial year to accommodate the needs of their community.

The next round of the Tuatapere Te Waewae Community Partnership Fund is now open and closes on 28 February 2021.

Local initiatives

Monowai Village Services Society Incorporated

On 16 September staff travelled to Monowai to meet with the members of the Monowai Village Services Society. A number of topics were discussed including the community board boundary changes since the representation review, rubbish collection, streetlights, and maintenance to the Monowai court and pavilion. This was a good chance for staff to connect with the society and improve the relationship and communication moving forward.

Monkey Island community meeting

On 16 September a meeting was held in Orepuki to update the community on the project at Monkey Island. Staff showed a proposal for planned works to be undertaken and the community was happy with what is being proposed.

What's happening outside your area

District/regional Initiatives

SDC holiday programme

Sport Southland will again be delivering the SDC holiday programme in January 2021. The programme will run in eight locations (Winton, Riverton, Lumsden, Stewart Island, Wyndham, Otautau, Te Anau and Tokanui) over eight dates. The dates and venues are currently being confirmed – look out for information coming out in school newsletters, Facebook pages etc over the coming weeks.

Milford Opportunities Project

In January this year Stantec, the governance group and the project working group went to Fiordland to experience and discuss the place and the work on the project that had previously been undertaken by WSP-Opus in Stage 1. Unfortunately, the following week the Fiordland floods happened closing State Highway 94 for a number of weeks and whilst that was happening Covid-19 was becoming an issue around the world to the point where New Zealand's alert level 4 lockdown was declared.

The original intention had been to have a number of public drop-in sessions/meetings and meetings with reference groups representing a number of interests in Milford Sound Piopiotahi and tourism operations generally. Obviously the lockdown meant that could not happen but the project has been able to have the reference groups meet via the Zoom meetings platform.

Stantec has continued to work on gathering and analysing the background data that will be needed to determine their recommendations to the governance group for the long list of options that should be given further consideration. More recently, Stantec have been able to travel to Fiordland and meet directly with stakeholders and in July there was a nationally advertised survey for people to engage with the project and provide their thoughts.

The Milford Opportunities Project is a chance for the public to shape the future of one of New Zealand's most iconic areas. Gathering feedback from a diverse range of New Zealanders is absolutely crucial. On 5 October 2020 the project will launch another nationwide campaign. This will be the final chance for large-scale engagement on this project as the team makes the decisions for the final master plan in December.

National initiatives

Sport NZ Community Resilience Fund 2.0

Funding support for community based organisations to cover fixed and operational costs.

The second round of the Community Resilience Fund has now closed, with a total of 117 applicants receiving support from the fund in the Southland region with a total of \$694,609.47 distributed (this includes Invercargill and Gore). In the Southland District Council area 37 organisations received support with a total of \$137,858 distributed.

In the Tuatapere Te Waewae area the following organisations/clubs received support:

- Borland Lodge Adventure and Education Trust - \$21,087.63
- Pukemaori Bowling Club Inc - \$1211.54
- Tuatapere Golf Club Inc - \$1178.00
- Waiau Squash Racquets Club Incorporated - \$2717.02

- Waiau Star Rugby Club Incorporated - \$5000.00

Impact of Covid-19 on our community and voluntary sector

Research was undertaken by the Centre for Social Impact, in partnership with Hui E, Philanthropy New Zealand and Volunteering New Zealand of the impact of Covid-19 on our community and voluntary sector.

The report details the findings of a national Covid-19 impact survey carried out across the tangata whenua, community and voluntary sector in May-June 2020. This was as the country was moving between levels 2 and 1 of the Covid-19 lockdown. The findings are based on 1,424 responses from a broad cross-section of the sector.

The link for the full report is: <https://www.centreforsocialimpact.org.nz/korero/2020/august/survey-highlights-impact-of-covid-19-on-the-community-and-voluntary-sector>

There was significant interest and outreach in the Otago-Southland regions to the survey. Fifteen percent of responses were from organisations solely operating in Southland.

The findings highlight the experiences of the sector in cherishing and caring for communities throughout Covid-19 and beyond. They take stock of the impact that effort has had on the sector and start the conversation about what now needs to be done.

The findings will be used to help lead confident, collective, well informed discussions around recovery and re-imagining the future state of a tangata whenua, community and voluntary sector that is well, flourishing and thriving.

What's coming up in the next couple of months?

Strategy and policy

Staff have begun identifying the national, regional and District strategies that are relevant to Council. Staff will undertake a needs assessment to assess the strategies that are necessary to focus work/service delivery and to guide decision making, both from a Council and community perspective. Staff will produce a strategy development plan that will outline an intended work programme, why particular strategies will be prioritised, and the ongoing commitments Council will need to make, such as any strategy review requirements.

Council have finished formal consultation on the draft Keeping of Animals, Poultry and Bees Bylaw, and councillors have received the submissions. On 29 September 2020 Council is scheduled to deliberate and adopt a final bylaw.

Council are still reviewing the charging method for non-recreational jetty usage on Stewart Island/Rakiura. The next steps for this piece of work are to discuss three charging options with the Stewart Island/Rakiura Community Board, and then request Council to endorse a charging method to be included and consulted on in the draft Long Term Plan.

Staff have been revising the Procurement Policy and developing a draft Procurement Manual. Staff presented the draft Procurement Policy to the Finance and Assurance Committee on 11 September 2020. Council will be asked in late October to release the draft policy in November 2020 for consultation.

Review of a suite of policies that will inform the Long Term Plan is underway. This includes the Revenue and Finance Policy, the Policy on Development and Financial Contributions, and the Significance and Engagement Policy. Draft policies will be presented to committees in September and to Council in October. Following Council approval, the formal consultation period for these policies is planned for the period from 4 November to 4 December 2020. Staff are also working on the asset management, contract management, risk management and grants and donations policies.

Work has begun to undertake the in-depth analysis of Council's top corporate risks. Finance and Assurance Committee members will discuss in detail selected risks from the top 10 corporate risks in each quarter beginning September 2020. Staff will also begin work on reviewing Council's operational risk framework in the up-coming months.

The annual report period is now underway and due to be completed by late October/early November 2020. The Finance and Assurance Committee met on 11 September to review the draft Annual Report 2019/2020 for release to Audit NZ.

The Long Term Plan is moving into a key development phase as Council continue to discuss the key issues facing the District. Activity management plan discussions were held in August, alongside the key policy development that informs this process. Council has provided initial guidance to staff that will assist in determining in developing key issues and options for further discussions in September that will form the basis of the LTP consultation document. Throughout September, another round of community board workshops are occurring for staff and elected members to further discuss levels of service and funding options.

Communications

Each of the nine community boards have now been allocated a dedicated person from SDC's communications team.

Their role will be to support the community board in all aspects of communications and engagement, including the content for the Facebook page and SDC's First Edition magazine.

Publications specialist Chris Chilton has been assigned to Tuatapere Te Waewae and is happy to chat about any ideas or communication needs – everything from informing the public about local initiatives, projects or events to profiling characters from the area.

Chris can be contacted on 0800 732 732, mobile 027 406 4099 or via email chris.chilton@southlanddc.govt.nz.

Stakeholder updates

NZTA – Waka Kotahi

Highways South appreciates the passion of Southlanders for their local communities and is grateful for the support of Southland community boards with conveying our passion for providing safe, fit-for-purpose state highways to connect these communities. Below gives an overview of recently completed projects in the Southland District area, as well as planned construction and safety work in the Southland District for the coming year:

Total	\$4,951	\$5,368	\$32,207	\$3,674	\$6,248	\$36,079	\$25,227	\$0	\$0

Income for Orepuki is under budget due to interest revenue earned from reserves held. This is only accounted for at year end and the forecasts will be adjusted to reflect this for the next report.

Orepuki operating expenditure is \$2,574 under budget overall due to the reduced maintenance and operating costs required in the streetworks and Orepuki Hall business units whilst moving expenditure is over budget in the beautification business unit.

Orepuki streetworks business unit capital spend is over budget due to \$25,227 spent towards internal capital footpaths. This is the 49% share of footpath work done for the year to date and is funded from General Reserves.

Tuatapere - Business Units as at 31 August 2020

Overall income is \$1,547 less than budgeted. Interest income earned on reserves held will only be allocated at the end of the financial year and the forecasts will be adjusted to reflect this for the next report.

Overall, Tuatapere Community Board expenses are \$20,307 under budget due to:

A \$4,118 underspend in councillor and board member salaries year to date (funded by the Waiau Aparima Ward reserves) as well as reduced maintenance, operating costs and general project costs required overall across most business units. The Tuatapere streetworks business unit has incurred less street litter bin charges, the beautification business unit has not incurred any spend towards mowing, whilst the Stormwater drainage business unit is underspend in monitoring charges in July and August compared to budget.

The Tuatapere pool grant has not been paid out and the hall incurred less cleaning costs year to date.

Capital costs of \$8,000 are for the installation of the flying fox at the Memorial Park playground, the budget of which has been carried forward from the 2020/2021 financial year.

Chief Executive

Three Waters

1. Work on the Three Waters reform programme is continuing, with a series of 14 workshops being held in July to explain to the local government sector the reform programme and the conditions attached to receipt of the tranche 1 stimulus funding. All of the 67 eligible local authorities have agreed to 'opt in' to the first stage of the reform programme, suggesting that there is wide acceptance across the sector about the need for reform.
2. To support the work of the joint central and local government steering committee in leading the reform work two new groups are being established. These are a system design group, whose role will be to test issues around overall system and institutional design, entity purpose, ownership, governance, accountability, funding models, etc, and a water technical infrastructure group that will look at the more technical infrastructure issues arising from the reforms.
3. To progress the work that needs to be considered across Otago and Southland the two mayoral forums are currently considering a proposal to establish a joint committee and establish a secretariat to support a joined-up approach to thinking about the issues arising from the three waters reform process for local government.
4. In early September the five Hawkes Bay councils released the report that they had commissioned in 2019 to examine the opportunities that might be created by a move to a more integrated regional service delivery model for the delivery of water and wastewater services.
5. A copy of the full report is available on their three waters review website (<https://www.hb3waters.nz/hawkes-bay-three-waters-service-delivery-report/>).
6. The Hawkes Bay report evaluates five different structural options:
 - enhanced status quo
 - a shared service business unit
 - a management council controlled organisation (CCO)
 - a sub-national CCO which extends beyond Hawkes Bay
 - an asset owning CCO.
7. It concludes that an asset owning CCO is the most appropriate model when evaluated against the objectives and principles originally set by the Hawkes Bay councils. It also goes on to assess the implications of establishment of such a model on the other council functions including addressing issues relating to, for example, stranded overheads.

8. While much of the analysis in the report has been ‘superseded’ by the central government three waters reform programme, there are a number of lessons to be drawn from the report that will be of interest to all local authorities.

Future of Local Government

9. Local Government New Zealand and SOLGM are advancing work to scope a future of local government work stream which will look at the changing role of the sector, particularly in light of the extensive changes that are likely to occur as a result of the three waters reform and resource management reform processes.
10. The work stream will have a particular focus on the role of local government in supporting community well-being and how this might further evolve in the future including the relationship between central and local government, the relative importance of the civic leadership role played by the sector and community led development.
11. The reducing role of the local government sector in both the infrastructure provision and regulatory service areas are likely to have an impact on the number, shape and form of local authorities in the future. This is expected to include discussion about whether it remains relevant to have a distinction between regional and territorial local authorities.

Climate Change

12. Local Government New Zealand (LGNZ) have recently released a report that looks at the approaches being used to adapt to the impacts of climate change on three different communities.
13. The report is available on the LGNZ website (<https://www.lgnz.co.nz/our-work/publications/case-studies-community-engagement-on-climate-change-adaptation/>).
14. The communities included in the case studies are the Ruawai Flats in Kaipara, South New Brighton and Southshore in Christchurch, and South Dunedin.
15. Although all three case studies focus on the issue of coastal inundation, each of them are at different stages of their climate change adaptation planning work and are effectively having to develop their own policy frameworks to guide their work raising issues around the desirability of developing greater national guidance in the adaptation area.

Environmental Services

Building Solutions

16. The building solutions team have continued to face challenges with the processing of building consents for the month of August 2020. Additional funding has been approved by Council to increase capacity and address the core issues experienced by the team.
17. The current Covid-19 environment has created a greater expectation from the community that buildings very promptly obtain Code Compliance Certificates. Financial impacts resulting in delays in this space are more noticeable, however with the whole industry working under pressure right now a trend of designers, builders and owners ‘drip feeding’ information into Council has created a large workload and noticeable time delays between Council receiving information and a

Code Compliance Certificate being issued. This is due to repeat requests for information being required before all information is received.

Animal Control

18. The dog registration process is to be reviewed. There have been a number of teething problems with the various online/email changes this year, and hence the need to simplify the process to make it as easy as practicable for our customers.
19. Another example of an animal control issue that struggles to find a regulatory owner has arisen (like cat and geese problems). Alleged feral pigs, that may be being kept, are getting on the road from a property in Blackmount, causing safety concerns. Council along with DoC, the police and Environment Southland all have roles, however in this case an agreement had been reached with the owner that if honoured, should resolve the issue.

Environmental Health

20. The team has completed the first remote verification. This is a verification of a food business that is completed using Zoom or similar app. The Ministry of Primary Industries has enabled verifiers to conduct these verifications, as a result of Covid-19.
21. The team has started work on introducing online applications for alcohol and food licensing applications. Currently applications are mostly completed by hand; and so this will improve the customer experience for those wanting an online option, and increase efficiency.

Resource Management

22. Covid-19 has not noticeably affected incoming workloads. Incoming resource consent applications remain consistent with the same period in 2019.
23. Up until the alert level 4 restrictions coming into force, ongoing policy focused work was occurring on the regional work streams for Climate Change, Biodiversity, Landscapes and Natural Character. In the national space, Covid-19 has delayed some anticipated national direction. Particularly, the national policy statements on highly productive land and indigenous biodiversity have been delayed and it is anticipated that they will now be released in April 2021.
24. Council has endorsed a report to bring forward the review of the landscapes section of the district plan. Work is now underway to understand the unique nature of Southland's landscapes, cultural values and local areas of significance. There are a number of pieces of work that will inform a review and also a number of conversations with communities and land owners. It is anticipated that a plan change will be notified in the middle of 2021.
25. SDC was part of the territorial authority reference group providing feedback to the Ministry of the Environment on the proposed NPS on Indigenous Biodiversity and the proposed New Zealand Biodiversity Strategy. Consultation on the NPS for Indigenous Biodiversity closed in March 2020.
26. Council submitted stating that in its opinion, achieving the requirements of the statement will require a significant body of work identifying potentially significant natural areas, mapping them and revising rules within the district plan to protect and enhance them. It is anticipated that there will be a significant cost associated with this. There is estimated to be 1.7 million hectares of

potentially significant biodiversity which equates to 57% of our District. Approximately, 94,000ha of this area is indicated to be on private land. Council has provided input into the LGNZ submission and Council is one of the case study councils forming part of that submission. It was anticipated that the National Policy Statement will likely be gazetted prior to the general election in September but this has been delayed until approximately April 2021.

27. Resource consent data for the previous few months is below:
- June – 21 applications received, 26 decisions issued.
 - July - 27 applications received, 28 decisions issued.
 - August – 18 applications received, 29 decisions issued.

Services and Assets

Forestry (IFS)

28. The financial year 2020/2021 harvesting programme is underway out of Waikaia Block 4. The crop age is 30 years and estimated tonnes are 19,000 with a forecast return of \$933,000.
29. A valuation report has recently been completed including a site visit. The outcome has been a \$360,000 revaluation against a budgeted devaluation of \$1,570,000. This is primarily due to market price and growth changes.
30. The Ardlussa Community Board has initiated a discussion about establishing mountain bike trails within the Waikaia forest. Their vision was presented at a recent board meeting and work is underway to scope and outline delivery of this work.

Around the Mountains Cycle Trail

31. The contract for repairs to the trail, associated with the February flood event, has been awarded to The Roding Company. The contract period is eight weeks and work has commenced on site.
32. A flood damaged culvert has been identified and work is underway to evaluate the damage and develop a solution.
33. The New Zealand Cycle Trail board is scheduled to visit Invercargill and the cycle trail in September, providing an opportunity to showcase this activity.

Te Anau Manapouri Airport

34. A consultant has prepared a 10 year maintenance works programme which indicates \$1.3 million of pavement rehabilitation capital spending need over financial years 2021/2022 and 2022/2023.
35. Maintenance spending need of \$192,000 is indicated for the 2020/2021 year and includes items such as patch repairs and cracked sealing.
36. A workshop is scheduled with the community board to discuss options and approach over the next LTP.

Property

37. The property disposal of the Ohai bowling club building is underway. The disposal of the former Stewart Island museum and the Hokonui hall has been completed as has the road stopping of the road intersecting the Southern dairy hub and the registration of all documents for the realignment and easements for Ringaringa Road on Stewart Island. Finalising the updated landowner consent for the coastal route boundary adjustments and payment of compensations is also almost complete. Once this is done the legalisation Gazette Notice can be issued.

Strategic Water and Waste

Land and Water Plan Implementation

38. Environment Southland released their proposed Land and Water Plan in 2017.
39. In total 25 appeals were received by Environment Southland of which Council has identified 10, which it will join as a Section 274 party. Council has also lodged an appeal to the decision. The basis of Council's appeal, is largely around the 'non-complying' activity status on wastewater discharges to water. The latest direction issued from the Environment Court outlines a proposed path, where appeals to objectives will be heard ahead of mediation, by grouped topic on policies and rules. Evidence in support of the appeals have been filed with the Environment Court.
40. Interim decisions were released by the Environment Court in late December with a recommendation that further expert conferencing be undertaken in early 2019.
41. A further hearing was held in mid-June 2020 where evidence was presented on additional information that the courts required Environment Southland to provide based on their interpretation of a number of key principles underpinning the plan. Agreement has now been reached on all outstanding appeals related to the objectives and policies with a further hearing planned to cover all outstanding appeals. At this stage the timing of this is not known.

Project Delivery Team (PDT)

42. PDT now meeting fortnightly with services and assets managers on works programme.
43. Currently working with CAMMS to look at options for simplified access for community boards and councillors.
44. The Te Anau wastewater project is progressing well with design in full swing and contracts now in place.
45. The first office shift project is now complete with staff moving into 42 Don Street on 7 September 2020.
46. With Council now approving Winton library project, this will progress quickly into design and consents.
47. The bridge works programme continues to progress well.
48. Fencing of waste water ponds is now underway after Covid-19 delays and securing final location agreements with neighbours.

Community Facilities

49. The community facilities team has been working through the second round of the Long Term Plan workshops with community boards. This has focused on the budgets associated with the opex and capex to meet the levels of service over the period of the plan and follows on from meetings previously held with the boards that highlighted the assets that were within their respective board areas of responsibility.
50. Three of the mowing tenders are set to go to the Services and Assets committee for approval to be awarded. Direct negotiations are in progress with the incumbent contractors for the Ardlussa Community Board. The remainder of the areas will be packaged up and put out to tender.
51. We are working through revising the requirements to become an approved contractor with the Health and Safety and Wellbeing Advisor to make sure that our traffic management and STMS obligations are being met.
52. The asset manager is now looking at progressing the work to get the community facilities assets into Council's asset management system (IPS).
53. Community facilities staff are completing projects that were carried forward from last year and starting the projects that are in this year's capital works programme.

Strategic Transport

National Land Transport Plan

54. The transport team continues to wait on the release of the final Government Policy Statement on Land Transport 2021 (GPS) to ensure activity plans and funding application align with the GPS strategic direction.
55. The continued delay of GPS is potentially putting the legislative requirements for the Regional Land Transport Plans (RLTP) at risk. Development of the RLTP is being progressed on the expectation that the strategic direction of the GPS will not change. This means that projects can be developed and included in the draft RLTP without the GPS being finalised.

District Wide Roading Programme

56. Evaluation of the District-wide resurfacing contracts have been completed and approved by the Services and Assets committee. This activity covers the resurfacing of approximately 3,000,000 m² of urban and rural roads across the District over the next three years. Contracts have been awarded to Fulton Hogan and Downer.
57. The 2020/2021 pavement rehabilitation program which consists of approximately 7km of sealed roads has been approved. Procurement of these works is currently underway with the first site expected to be completed prior to Christmas.

Customer Delivery

Customer Support

58. We answered 3,926 calls in the month of July, with an average wait time for our customers of 21 seconds. We had a steady number of late dog registrations. There are now just 1,086 dogs needing to be registered which will trickle in over the next few weeks.

Libraries

59. Alert level 2 has been a challenge for many of our library staff and community members. Our original restrictions for alert level 2 were designed for a short period of time and not a drawn out phase. A fortnight ago, after many great suggestions from our libraries team, we relaxed some of our alert level 2 restrictions to fall in line with other similar libraries of our size and allow for a much easier system to both manage and experience.
60. During this time at alert level 2, most of our programming has been put on hold to adhere to social distancing requirements, though we have started to allow our adult focused programming to start up again.
61. We are currently planning for the October school holiday programme in the hopes that the country will be back at alert level 1, however we are cognisant this may not occur and will plan for this possibility as well.

Knowledge Management

62. While LIM numbers are lower than previous years they continue to trend upward. Over the month of August the team lodged 45 LIM applications and issued 39, compared to only 29 in August 2019. When looking at last year's numbers you can clearly see a drop started in May 2019 and continued until June 2020.

☐ Decision ☐ Recommendation ☒ Information

Purpose

- 1 The purpose of this report is for the Tuatapere Te Waewae Community Board to formally receive the results of the Tuatapere railway station building survey to enable them to progress in the decision making for the future of this asset.

Background

- 2 The Tuatapere Te Waewae Community Board requested Council staff assist the board in undertaking a community survey to help in the future decision making relating to the Tuatapere railway station building.
- 3 The questions for the survey were developed by the Tuatapere Te Waewae Community Board in conjunction with Council staff.

Community Consultation

- 4 The survey was distributed to the community through an online survey, a letterbox drop, and for pick up from the Tuatapere Foursquare. A total of 105 responses were received across all of the collection methods.

Feedback

- 5 The Tuatapere Te Waewae Community Board were informally presented the results of the survey by Council staff at their workshop on 3 August.
- 6 Following this, the Tuatapere Te Waewae Community Board have further engaged with Council staff regarding the options available to them for either retaining or disposing of the railway station building.

Recommendation

That the Tuatapere Te Waewae Community Board:

Tuatapere Te Waewae Community Board

Railway station building community consultation 2020

Total number of responses: 105

Q1. Do you wish to see the Tuatapere Railway Station building retained as a community asset?

Q2. If the railway station building was to be retained as a community asset, who would you prefer to own the asset and be responsible for the costs associated with repairs?

Comments from those who selected "other"

1. Community board in conjunction with a community group
2. Promotions Group
3. Tuatapere & District Promotion
4. An individual who is interested in restoring it and using it for their own use/business
5. Either Community board or a local group
6. Separate trust
7. Southland District Council and Southland Heritage and Building Preservation Trust
8. Promotions
9. Would like a group and the community board to work together
10. Neither - as a ratepayer I strongly object to the Community Board taking on such a liability. Existing community groups struggle with volunteerism and maintaining their assets as it is.

11. Since the building has not been adequately maintained for more than 20 years it is clear that there is not enough real local interest in the building.
12. There is no group or organisation that is capable of being responsible for the building.
13. The community cannot afford to pay additional rates for a building that has clearly been neglected for many years.
14. NZ government
15. Either the community board or a community group

Q3. If the railway station building were to be taken over by a local community group or organisation, would you (or an organisation/group you are involved with) have an interest in taking it over?

Comments

1. I would be prepared to be a part or involved in a local community group that possibly took this over being already involved in Murihiku Heritage.
2. From a special railway station group
3. I don't want it to add more to my already high rates
4. Tuatapere & District Promotion
5. Do voluntary work
6. Tuatapere Promotions
7. Promotions group
8. Shared path committee or District Promotions
9. Tuatapere and District Promotions
10. Depends but probably yes
11. S. Devries, 7 Gillies, Tuatapere
12. As part of a group
13. Tuatapere Promotions Group
14. Promotions
15. Could be a wood choppers museum. An information centre that's not at the discretion of the Hump Track
16. Tuatapere Promotions
17. Tuatapere & Districts Promotions Inc
18. Tuatapere Promotions
19. Ensure if this is decided as the course of action that all of the community has a say in approving or not a takeover
20. Yes but only on the condition that a use could be found for the station before renovations started
21. Tui promotions
22. Tuatapere promo group
23. Promotions group
24. Museum trust
25. Waiau Rivercare

Q4. If the railway station building was not retained as a community asset, what would you prefer to be done with it?

Comments

1. Sell or give for removal. Ground to be left tidy under council administration
2. Gifted to the Bushman's Museum so they could keep some historical parts of it
3. Not an option
4. Keep it where it is. It is a part of our settlement history
5. Not an option
6. Do enough repairs to keep as is.
7. Retained
8. Removed or sold to the private market
9. If it was sold to a private market it would not stay in Tuatapere
10. Save it, it has been part of Tuatapere for years and it can stay as a part of our history
11. Free firewood for locals only
12. The community needs to be actively involved in the decision i.e. who comes forward interested in buying it and what do they intend to do with it
13. Retain please
14. Given to a heritage group
15. "Given" to the private market
16. Remove the building, but consider other possible options.
17. Any of the above i.e. sold, removed or demolished.
18. Heritage building should not be removed
19. Not sold
20. Would be such a shame to lose this historical asset.
21. After removal or demolition of the building there should be beautification of the area done and native trees planted to commemorate the site.
22. Save

Southland District - Wellbeing Indicators Snapshot - August 2020

Record No: R/20/9/52026

Author: Shanin Bridger, Community & Futures Administrator

Approved by: Rex Capil, Group Manager Community and Futures

☐ Decision

☐ Recommendation

☒ Information

- 1 The purpose of this report is to present the Tuatapere Te Waewae Community Board with a wellbeing indicator's snapshot of Southland District.

Background

- 2 Investing in community future planning was a consultation topic in the 2018-2028 Long Term Plan. Council identified the need to undertake research and collect data about our changing communities to assist in prioritising and making decisions for the future and consider the overall wellbeing of the people residing in Southland District. 65% of submitters supported Council investing in community planning, research and data; to help future proof and ensure Council has the information needed to make informed decisions for now and into the future.

Next Steps

- 3 If the board wishes, staff will present a wellbeing snapshot report quarterly. This is currently an information only report at this point and staff will begin to provide comparative analysis of the information provided at a later date, and identify trends for further discussion.
- 4 Staff are interested to hear feedback from the board on the information being presented.

Recommendation

That the Tuatapere Te Waewae Community Board:

- a) **Receives the report titled "Southland District - Wellbeing Indicators Snapshot - August 2020" dated 23 September 2020.**

I) Approves/Declines a grant of \$700 to Tuatapere Highland Piping and Dancing to assist with the funding of prizes at their annual dancing competition.

Background

- 4 Southland District Council's community assistance activity seeks to contribute to a District of 'proud, connected communities that have an attractive and affordable lifestyle' by enabling Southland's communities to be desirable places to live, grow up, work, run a business, raise a family and enjoy a safe and satisfying life. Through providing financial assistance by way of grant funding, community groups and individuals are supported to undertake their desired activities.
- 5 A review of the community assistance activity was completed in early 2019. The purpose of this review was to ensure that Council is providing assistance in a considered and prudent manner to ensure efficient and effective outcomes for the communities they support.
- 6 It was recommended that there should be a significant change in the way that Council administers the Community Initiatives Fund. Subsequently, in July 2019 Council resolved to disestablish the Community Initiatives Fund and to establish the Community Partnership Fund whereby the nine community boards in the District will allocate funding directly to their communities.
- 7 The Tuatapere Te Waewae Community Board set the following criteria for the Tuatapere Te Waewae Community Partnership Fund:
- there will be two funding rounds per annum closing on 31 August and 28 February
 - funding requests must be for not for profit purposes
 - community groups do not have to be a legal entity to apply, and individuals will be considered on a case by case basis
 - preference will be given to projects that directly benefit the community board area and its residents
 - there is no cap on the amount applications can request
 - applicants should be able to demonstrate some degree of self-fundraising towards their project, this will be assessed on a case by case basis
 - for project involving capital works, it is expected that the applicant provides two quotes for the works but if it is not possible to get more than one quote it will be expected that there is an explanation for this
 - applicants will be invited to speak to the board about their funding request and project
 - this criteria maybe reviewed by the Board as and when required

Recommendations

- 8 The recommendations outline the amounts requested in the applications. Staff recommend that the Tuatapere Te Waewae Community Board consider each application individually and determine the level of funding they wish to allocate.

Issues

- 9 There is an issue to consider regarding funding application five “Phil Symonds on behalf of the Clifden community”. Prior to submitting this funding application, Mr Symonds applied to council to plant trees on the road reserve at Clifden Bridge. His application to plant trees on the road reserve at Clifden Bridge was declined on the basis that council policy states that applications to plant trees on road reserve will only be received from adjoining landowners in conjunction with plantings occurring on their own private land. The Tuatapere Te Waewae Community Board should take this into account when considering his funding application.

Factors to Consider

Legal and Statutory Requirements

- 10 There are no legal or statutory requirements to consider.

Community Views

- 11 The community board, as representatives of the Tuatapere Te Waewae Community Board area will consider each application and how it benefits the communities in Tuatapere Te Waewae.

Costs and Funding

- 12 The Tuatapere Te Waewae Community Board has \$31,371 available to allocate through the Tuatapere Te Waewae Community Partnership fund in the 2020/2021 financial year.

Policy Implications

- 13 There are no policy implications.

Analysis

Options Considered

- 14 The options for consideration are to allocate funding pursuant to the funding criteria set by the community board or decline the applications.

Analysis of Options

Option 1 – Allocates funding pursuant to the funding criteria set by the community board

<i>Advantages</i>	<i>Disadvantages</i>
<ul style="list-style-type: none">Support community groups to achieve local initiatives	<ul style="list-style-type: none">there are no disadvantages

Option 2 – Declines the applications

<i>Advantages</i>	<i>Disadvantages</i>
<ul style="list-style-type: none">there are no advantages	<ul style="list-style-type: none">no funds awarded could hinder the progress of community-led development due to lack of financial support

Assessment of Significance

- 15 This is not considered significant.

Recommended Option

- 16 The recommended option is “option 1 - allocates funding pursuant to the funding criteria set by the community board”.

Next Steps

- 17 Advise applicants of the outcome of the funding allocations.
