Terms of Reference – Community Boards

TYPE OF COMMITTEE	Community board
RESPONSIBLE TO	<p>Council</p> <p>Each community board will have a relationship with the committees in section 8.4.2 to 8.4.5 of the delegations manual based on the scope of the activities/functions delegated to each committee.</p>
SUBCOMMITTEES	As noted in section 8.5 of the delegations manual various subcommittees will report to specific community boards.
LEGISLATIVE BASIS	<p>Resolution made by Council through the representation arrangements as per the Local Electoral Act 2001.</p> <p>Role, status and membership as per subpart 2 of Part 4 of the Local Government Act 2002 (LGA).</p> <p>Treaty of Waitangi as per section 4, Part 1 of the LGA.</p> <p>Opportunities for Maori to contribute to decision-making processes as per section 14 of Part 2 of the LGA. Community boards delegated powers by Council as per schedule 7, clause 32, LGA.</p> <p>Appointment of councillors to community boards as per section 50, LGA.</p>
MEMBERSHIP	<p>Oreti and Waihopai Toetoe Community Boards have seven members elected by the local authority triennial elections plus a member appointed by Council. All other community boards have six members plus a member appointed by Council.</p> <p>The chairperson is elected by the community board.</p> <p>Councillors who are not appointed to community boards can only remain for the public section of the community board meeting. They cannot stay for the public excluded section unless the community board agrees.</p>
FREQUENCY OF MEETINGS	Every second month but up to ten ordinary meetings a year
QUORUM	Not less than four members
KEY FUNCTIONS	<ul style="list-style-type: none"> • to promote the social, economic, environmental and cultural well-being of local communities and in so-doing contribute to the realisation of Council’s vision of one District offering endless opportunities • to provide leadership to local communities on the strategic issues and opportunities that they face • to be advocates and representatives for their local community and in so doing ensure that Council and other agencies have a clear understanding of local needs and aspirations • to be decision-makers on issues that are delegated to the board by Southland District Council • to develop relationships and communicate with key community organisations, special interest groups, residents and businesses within the community

	<ul style="list-style-type: none"> • to maintain an overview of the services Council delivers to its communities and assess the extent to which these services meet community needs • to recommend the setting of levels of service and budgets for local activities.
DELEGATIONS	<p>The community board shall have the following delegated powers and be accountable to Council for the exercising of these powers.¹</p> <p>In exercising the delegated powers, the community board will operate within:</p> <ol style="list-style-type: none"> 1) policies, plans, standards or guidelines that have been established and approved by Council 2) the needs of the local communities; and 3) the approved budgets for the activity. <p>Power to Act</p> <p>The community board will prepare and implement programmes of work, which will be reflected in its community board plan, which are relevant to the purposes of the community board that are consistent with the long term plan and annual plan processes of Council. Such programmes are to include budgetary provision for all costs associated with the work.</p> <p>Community Well-Being</p> <ol style="list-style-type: none"> 4) to develop local community outcomes that reflect the desired goals for their community/place 5) to monitor the overall well-being of local communities and use the information gathered to inform development of local strategies to address areas of need 6) work with Council and the community to develop a community board plan for the community of interest area – working in with any community plans that may exist. <p>Community Leadership</p> <ol style="list-style-type: none"> 7) communicate and develop a relationship with community organisations, local groups, and special interest groups within the local community of interest 8) identify key issues that will affect their community of interest’s future and work with Council staff and other local representatives to facilitate multi-agency collaborative opportunities 9) promote a shared vision for the community of interest area and develop and promote ways to work with others to achieve positive outcomes 10) provide a local community perspective on Council’s long term plan key performance indicators and levels of service as detailed in the long term plan, and on local expenditure, rating impacts and priorities.

¹ Local Government Act 2002, s.53

Advocacy

- 11) submissions
 - a) authority to make recommendations to Council on matters to be considered in submissions Council may make to external organisations' regional or national policy documents, select committees
 - b) authority to make submissions to Council or other agency on issues within its community of interest area
 - c) authority to make submissions to Council on bylaws and recommend to Council the level of bylaw service and enforcement to be provided, having regard to the need to maintain consistency across the District for all Council bylaws.
- 12) authority to prepare a submission to Council on the proposed levels of service, income and expenditure within the community of interest area, for consideration as part of the long term plan/annual plan process
- 13) provide comment by way of the formal Annual Plan/Long Term Plan process on relative priorities for the delivery of District services and levels of service within the community board area.

District activities include:

 - a) wastewater
 - b) solid waste
 - c) water supply
 - d) parks and reserves
 - e) roading
 - f) libraries
 - g) cemeteries
 - h) emergency management
 - i) stormwater
 - j) public toilets
 - k) community housing
- 14) Council will set the levels of service for District activities – if a community board seek a higher level of service they will need to recommend that to Council and it will need to be funded in an appropriate way (locally).

Community Assistance

- 15) authority to establish prioritisation for allocation based on an overarching set of criteria from council to guide the scope of the activity
- 16) authority to grant the allocated funds from the Community Partnership Fund

- 17) authority to allocate bequests or grants generated locally consistent with the terms of the bequest or grant fund

Northern Community Board

- 18) make decisions regarding funding applications to the Northern Southland Development Fund. The Northern Community Board may invite a representative of the community of Dipton to take part in the decisions on applications to the Northern Southland Development Fund.

Unbudgeted Expenditure

Approve unbudgeted operating expenditure for local activities of up to \$20,000.

Approve up to a \$20,000 increase in the projected cost of a budgeted capital works project/item that is included in the annual plan/LTP.

Authority to delegate to the chief executive, when approving a project definition/business case, over-expenditure of up to \$10,000 for capital expenditure against the budget detailed in the Annual Plan/LTP.

Service Delivery

Local Activities

For activities within the local activities category, the community board shall have authority to:

- a) recommend to Council levels of service for local activities having regard to Council budgets within the Long Term Plan and Annual Plan process
- b) recommend to Council the rates and/or user charges and fees to fund the local activities
- c) accept donations of a local asset eg a gas barbeque, park bench, etc with a value of less than \$20,000.
- d) approve project definitions/business cases for approved budgeted capital expenditure up to \$300,000
- e) recommend to the Services and Assets Committee the approval of project definitions/business case and procurement plan for capital expenditure over \$300,000 and/or any unbudgeted capital expenditure
- f) monitor the performance and delivery of the service in meeting the expected levels of service
- g) facilitate the development of local management plans (for subsequent recommendation to Council), where required by statute or in support of District or other plans for reserves, harbours, and other community facilities, except where powers:
 - have been delegated to Council officers; or
 - would have significance beyond the community board's area or otherwise involves a matter of

national importance (Section 6 Resource Management Act 1991); or

- involve the alienation of any part of a proposed or existing esplanade reserve by way of width reduction, easement, lease or otherwise.

Local activities include:

- i) community leadership
 - ii) local halls and community centres (within Council's overarching policy for community facilities)
 - iii) wharves and harbour facilities
 - iv) local parks and reserves
 - v) parking limits and footpaths
 - vi) Te Anau/Manapouri Airport (Fiordland Community Board)
 - vii) Stewart Island Electricity Supply Authority (SIESA) (Stewart Island/Rakiura Community Board)
 - (i) for the above two local activities only
 - (ii) recommend levels of service and annual budget to the Services and Assets Committee
 - (iii) monitor the performance and delivery of the service
- 19) naming reserves, structures and commemorative places
- a) authority to decide upon requests from the community, regarding names of reserves, the placement of structures and commemorative places.
- 20) naming roads
- a) authority to decide on the naming for public roads, private roads and rights of way
- 21) assist the chief executive by providing comment (through the board chairperson) to consider and determine temporary road closures applications where there are objections to the proposed road closure.

Rentals and Leases

In relation to all leases and licences of land and buildings for local activities within their own area, on behalf of Council;

- a) accept the highest tenders for rentals more than \$10,000
- b) approve the preferential allocation of leases and licenses where the rental is \$10,000 or more per annum.

Environmental management and spatial planning

- 22) provide comment on behalf of the relevant community/communities on resource consent applications referred to the community board for comment.
- 23) recommend to Council the level of bylaw service and enforcement to be provided within the community, having regard to the need to maintain consistency across the District.

	<p>24) provide advice to Council and its committees on any matter of interest or concern to the community board in relation to the sale of alcohol where statutory ability exists to seek such feedback.</p> <p>25) provide input into regulatory activities not otherwise specified above where the process allows.</p> <p>26) recommend to Council the initiating of an appeal or reference to the environment court on decisions in respect to resource consent applications on which the board has made submissions; ability to provide input to support the development of community planning for a civil defence emergency; and after an emergency event, to provide input and information to support community response efforts.</p>
LIMITS TO DELEGATIONS	<p>No financial or decision making delegations other than those specifically delegated by Council.</p> <p>The community board shall only expend funding on purposes for which that funding was originally raised and in accordance with the budgets approved by Council through its Long Term Plan/Annual Plan. In accordance with the provisions of section 39(2) of Schedule 7 the board may not incur expenditure in excess of the approved budget.</p> <p>Matters which are not Delegated</p> <p>Southland District Council has not delegated to community boards the power to:</p> <ul style="list-style-type: none"> • make a rate or bylaw • acquire, hold or dispose of property • direct, appoint, suspend or remove staff • engage or enter into contracts and agreements and financial commitments • institute an action for recovery of any amount • issue and police building consents, notices, authorisations and requirements under acts, statutes, regulations, bylaws and the like; • institute legal proceedings other than the delegation to recommend to Council the initiating of an appeal or reference to the environment court on decisions in respect to resource consent applications on which the community board has made submissions.
CONTACT WITH MEDIA	<p>The community board chairperson is the authorised spokesperson for the board in all matters where the board has authority or a particular interest.</p> <p>Board members, including the chairperson, do not have delegated authority to speak to the media and/or outside agencies on behalf of Council on matters outside of the board's delegations.</p>

	<p>The assigned Executive Leadership Team member will manage the formal communications between the board and its constituents and for the board in the exercise of its business. Correspondence with central government, other local government agencies or official agencies will only take place through Council staff and will be undertaken under the name of Southland District Council.</p>
REPORTING	<p>Community boards are unincorporated statutory bodies which are elected to represent the communities they serve.</p> <p>The boards maintain bound minute books of their own meetings.</p>

1 Apologies

At the close of the agenda no apologies had been received.

2 Leave of absence

At the close of the agenda no requests for leave of absence had been received.

3 Conflict of interest

Community board members are reminded of the need to be vigilant to stand aside from decision-making when a conflict arises between their role as a member and any private or other external interest they might have.

4 Public forum

Notification to speak is required by 12noon at least one clear day before the meeting. Further information is available at www.southlanddc.govt.nz or by phoning 0800 732 732.

5 Extraordinary/urgent items

To consider, and if thought fit, to pass a resolution to permit the Community Board to consider any further items which do not appear on the agenda of this meeting and/or the meeting to be held with the public excluded.

Such resolution is required to be made pursuant to Section 46A(7) of the Local Government Official Information and Meetings Act 1987, and the chairperson must advise:

- (i) the reason why the item was not on the agenda, and
- (ii) the reason why the discussion of this item cannot be delayed until a subsequent meeting.

Section 46A(7A) of the Local Government Official Information and Meetings Act 1987 (as amended) states:

“Where an item is not on the agenda for a meeting,-

- (a) that item may be discussed at that meeting if-
 - (i) that item is a minor matter relating to the general business of the local authority; and
 - (ii) the presiding member explains at the beginning of the meeting, at a time when it is open to the public, that the item will be discussed at the meeting; but
- (b) no resolution, decision or recommendation may be made in respect of that item except to refer that item to a subsequent meeting of the local authority for further **discussion.”**

6 Confirmation of minutes

6.1 Meeting minutes of Fiordland Community Board, 30 June 2021

Fiordland Community Board

OPEN MINUTES

Minutes of a meeting of Fiordland Community Board held in the Te Anau Club, Corner Pop Andrew Drive and Jackson Street, Te Anau on Wednesday, 30 June 2021 at 2pm.

PRESENT

Chairperson	Sarah Greaney
Deputy Chairperson	Diane Holmes
Members	Mary Chartres
	Ryan Murray
	Max Slee

APOLOGIES

Councillor Kremer
Benjamin Killeen

IN ATTENDANCE

Committee advisor	Alyson Hamilton
Community partnership leader	Simon Moran
Community liaison officer	Megan Seator

1 Apologies

There were apologies from Councillor Kremer and Benjamin Killeen.

Resolution

Moved Ryan Murray, seconded Deputy Chairperson Holmes and resolved:

That the Fiordland Community Board accept the apologies.

2 Leave of absence

There were no requests for leave of absence.

3 Conflict of interest

There were no conflicts of interest declared.

4 Public forum

Allessandra Menegatti addressed the meeting on a proposed initiative of holding a South Sea Spray Mural Festival in Te Anau/Manapouri.

Mrs Menegatti took the board through a presentation on the planning/costings and fundraising involved of running a festival, explained the process of painting murals and that she intended to undertake consultation with the community to ascertain support for this project.

The Chair expressed appreciation to Mrs Matthews for her attendance at the meeting and the presentation to the board.

Judy Matthews on behalf of the Te Anau Flower Show Committee addressed the meeting seeking board approval to place a memorial seat adjacent the lakeside walkway opposite the Church to honour Mrs Betty Dodds who was instrumental in founding the Te Anau Spring Flower Show.

The Chair expressed appreciation to Mrs Matthews for her attendance at the meeting advising of board support for this project and that she liaise with staff for the necessary consent forms required to place a structure on council land.

5 Extraordinary/urgent items

There were no extraordinary/urgent items.

6 Confirmation of minutes

Resolution

Moved Ryan Murray, seconded Mary Chartres and resolved:

That the minutes of Fiordland Community Board meeting held on 13 April 2021 be confirmed as a true and correct record of that meeting.

Reports

7.1 Destination Fiordland - transfer of residual funds to Great South

Record No: R/21/6/36126

Community partnership leader – Simon Moran was in attendance for this item.

Mr Moran advised the purpose of the report is to request that the Fiordland community board recommend to Council the transfer to Great South of residual funds it holds in trust from the liquidation of Destination Fiordland.

Resolution

Moved Deputy Chairperson Holmes, seconded Max Slee and resolved:

That the Fiordland Community Board:

- a) **receives the report titled “Destination Fiordland - transfer of residual funds to Great South” dated 24 June 2021.**
- b) determines that this matter or decision be recognised as not significant in terms of Section 76 of the Local Government Act 2002.
- c) determines that it has complied with the decision-making provisions of the Local Government Act 2002 to the extent necessary in relation to this decision; and in accordance with Section 79 of the act determines that it does not require further information, further assessment of options or further analysis of costs and benefits or advantages and disadvantages prior to making a decision on this matter.
- d) endorses that the transfer of the funding is subject to an agreement with Great South to do the following –
 - ring-fence the funds to be used only for supporting tourism in Fiordland in line with the **objectives of Destination Fiordland’s constitution.**
 - provide an annual report to the Fiordland Community Board, by August each year, on how the funds have been spent and/or is intended to be spent until such time as the value of the transfer funds has been fully used.

- e) recommends to Council that it approve the transfer of all residual funds received by the Fiordland Community Board from the liquidation of Destination Fiordland Inc to Great South in accordance with resolution (d).

7.2 Project Scope Confirmation - 2021/2022 Locally Funded Projects

Record No: R/21/6/26413

Community facilities manager – Mark Day was in attendance for this item.

Mr Day advised the purpose of the report is to seek approval from the Fiordland Community Board for the scope of the locally funded projects within the board area that will be delivered in the 2021/2022 financial year.

The Board noted that the projects identified to have the scoping reports approved are:

- i) P-10808 Boat harbour playground equipment renewal
- ii) P-10811 Henry street playground equipment renewal
- iii) P-10883 Te Anau urban development investigation project
- iv) P-10884 View street carpark development
- v) P-10878 Steamers beach boat ramp refurbishment
- vi) P-10879 Boat harbour public boat ramp refurbishment
- vii) P-10882 Pearl harbour boat ramp investigation
- viii) P-10669 Pearl harbour gabion basket replacement
- ix) P-10900 and P-10910 Footpath programme 2021-2022
- x) P-10920 Streetlight LOS programme 2021 -2022

Resolution

Moved Deputy Chairperson Holmes, seconded Max Slee recommendations a to c and d with a deletion of d-ii (as indicated with ~~striketrough~~) and with an addition to d-iv, d-ix, d-x (as indicated with underline) and resolved:

That the Fiordland Community Board:

- a) **Receives the report titled “Project Scope Confirmation - 2021/2022 Locally Funded Projects” dated 22 June 2021.**
- b) Determines that this matter or decision be recognised as not significant in terms of Section 76 of the Local Government Act 2002.
- c) Determines that it has complied with the decision-making provisions of the Local Government Act 2002 to the extent necessary in relation to this decision; and in accordance with Section 79 of the act determines that it does not require further information, further assessment of options or further analysis of costs and benefits or advantages and disadvantages prior to making a decision on this matter.
- d) Agrees to approve the scope of the projects identified (as indicated below) with the details defined in the attachments to the staff report:
 - I. P-10808 Boat harbour playground equipment renewal

- II. ~~P-10811 Henry street playground equipment renewal – delete~~
- III. P-10883 Te Anau urban development investigation project
- IV. P-10884 View street carpark development – subject to receiving the outcome of the TIF funding application and a subsequent geotechnical report determining the stability of the bank
- V. P-10878 Steamers beach boat ramp refurbishment
- VI. P-10879 Boat harbour public boat ramp refurbishment
- VII. P-10882 Pearl harbour boat ramp investigation
- VIII. P-10669 Pearl harbour gabion basket replacement
- IX. P-10900 and P-10910 Footpath programme 2021-2022 – noting Milford Road is the priority
- X.** P-10920 Streetlight LOS programme 2021 -2022 – requesting consultation with effected parties.

7.4 Fiordland Community Partnership Fund - May 2021 allocations

Record No: R/21/6/33673

Community liaison officer – Megan Seator was in attendance for this item.

Mrs Seator advised the purpose of the report is for the Fiordland Community Board to allocate funding for the May 2021 round of the Fiordland Community Partnership Fund.

The board noted \$17,693 available to distribute for the May 2021 funding round.

Moved Max Slee, seconded Ryan Murray recommendations a to d. The motion was put and declared CARRIED.

Moved Max Slee, seconded Ryan Murray recommendations e,f,g,h,i and j as follows:

- e) Approves/~~Declines~~ a grant of ~~\$6,222.22~~ \$4,193 to Te Anau Football Club (soccer) to assist with operational costs towards the establishment of the club.
- f) Approves/~~declines~~ a grant of ~~\$2,500~~ \$1,000 to the Fiordland Community Garden Charitable Trust towards the costs associated with delivering gardening, waste minimisation, healthy living and cooking workshops over the next twelve months.
- g) Approves/~~declines~~ a grant of ~~\$5,000~~ \$4,000 to the Te Anau Waitangi Charitable Trust towards the costs to deliver the Waitangi Day community event in Te Anau.
- h) Approves/~~declines~~ a grant of \$5,000 to the Deep Cove Outdoor Education Trust towards the cost of installing a walk-in chiller at their hostel kitchen.
- i) Approves/~~declines~~ a grant of \$500 to the Key Playcentre towards a new mural at the entrance.
- j) Approves/~~declines~~ a grant of \$3,000 to the Te Anau Rugby Club towards new fencing.

The motion was put and declared CARRIED.

Final resolutions

That the Fiordland Community Board:

- a) **Receives the report titled “Fiordland Community Partnership Fund - May 2021 allocations” dated 23 June 2021.**
- b) Determines that this matter or decision be recognised as not significant in terms of Section 76 of the Local Government Act 2002.
- c) Determines that it has complied with the decision-making provisions of the Local Government Act 2002 to the extent necessary in relation to this decision; and in accordance with Section 79 of the act determines that it does not require further information, further assessment of options or further analysis of costs and benefits or advantages and disadvantages prior to making a decision on this matter.
- d) Receives applications from the following:
 1. Te Anau Football Club (soccer)
 2. Fiordland Community Garden Charitable Trust
 3. Te Anau Waitangi Charitable Trust
 4. Deep Cove Outdoor Education Trust
 5. The Key Playcentre
 6. Te Anau Rugby Club
- e) Approves a grant of \$4,193 to the Te Anau Football Club (soccer) to assist with operational costs towards the establishment of the club.
- f) Approves a grant of \$1,000 to the Fiordland Community Garden Charitable Trust towards the costs associated with delivering gardening, waste minimisation, healthy living and cooking workshops over the next twelve months.
- g) Approves a grant of \$4,000 to the Te Anau Waitangi Charitable Trust towards the costs to deliver the Waitangi Day community event in Te Anau.
- h) Approves a grant of \$5,000 to the Deep Cove Outdoor Education Trust towards the cost of installing a walk-in chiller at their hostel kitchen.
- i) Approves a grant of \$500 to the Key Playcentre towards a new mural at the entrance.
- j) Approves a grant of \$3,000 to the Te Anau Rugby Club towards new fencing.

7.5 Fiordland Community Partnership Fund - funding rounds and criteria from 1 July 2021

Record No: R/21/5/25733

Community liaison officer – Megan Seator was in attendance for this item.

Mrs Seator advised the purpose of this report is for the Fiordland Community Board to discuss and confirm the number of funding rounds and funding criteria for the Fiordland Community Partnership Fund effective from 1 July 2021.

Resolution

Moved Ryan Murray, seconded Mary Chartres and resolved:

That the Fiordland Community Board:

- a) **receives the report titled “Fiordland Community Partnership Fund - funding rounds and criteria from 1 July 2021” dated 21 June 2021.**
- b) determines that this matter or decision be recognised as not significant in terms of Section 76 of the Local Government Act 2002.
- c) determines that it has complied with the decision-making provisions of the Local Government Act 2002 to the extent necessary in relation to this decision; and in accordance with Section 79 of the act determines that it does not require further information, further assessment of options or further analysis of costs and benefits or advantages and disadvantages prior to making a decision on this matter.
- d) Agrees to continue with the funding criteria set by the Fiordland Community Board as follows:
 - Applicants may apply for \$500 - \$5000 in funding.
 - This fund is available to not-for-profit community organisations.
 - Community organisations may be a legal entity or an informal group. Regardless of their legal status the group must have their own bank account.
 - Applications to the fund must:
 - have alignment with the Fiordland Community Futures Plan and/or the four community well beings (social, economic, environmental, cultural)
 - show some degree of self-contribution or fundraising
 - The following will not be considered:
 - funding for individuals
 - applications for salaries, catering or room hire
 - funding for pecuniary gain
 - Applications for funding involving capital works will be expected to provide more than one quote.
 - Applicants may choose to speak to their application or may be requested to do so.
- e) Agrees that the current funding rounds of three rounds per year continues.
- f) Agrees to communicate this to the community board area through the community board Facebook page and local community advertisements.

7.3 Summary of feedback on the proposal to name the un-named reserve in Fergus Square to Frana Cardno Reserve.

Record No: R/21/5/25199

Community partnership leader – Simon Moran was in attendance for this report.

Mr Moran advised the purpose of the report is to provide the Fiordland Community Board with a summary of the feedback received from the community through web-based and hard copy surveys on the proposal to name the un-named reserve in Fergus Square to Frana Cardno reserve.

Resolution

Moved Deputy Chairperson Holmes, seconded Ryan Murray recommendation a, with a new b and c, (as indicated) and resolved:

That the Fiordland Community Board:

- a) **Receives the report titled “Summary of feedback on the proposal to name the un-named reserve in Fergus Square to Frana Cardno Reserve.” dated 24 June 2021.**
- b) Request that Council investigate formally the gazettement of the unnamed recreational reserve as Fergus Square.
- c) Agree that the memorial structure remain at Fergus Square and that Council proceed with the opening/unveiling ceremony as had been previously planned.

7.6 Chairperson's report

Record No: R/21/6/28796

Chairperson Sarah Greaney presented this report.

Chairperson Greaney drew a number of issues to the attention of the board including:

- Business events meeting with Great South and Angus & Associates
- Otago university – student visit
- Consultation on Te Anau Events Trust
- Cemetery memorial wall
- Update on Manapouri wastewater treatment

- 1 This report is seeking feedback from the board on possible amendments to the Open Spaces Strategy and the Reserves Management Policy.

Executive summary

- 2 In 2014, Council adopted an Open Spaces Strategy that provides guidance on desired outcomes and priorities for Council's open spaces. An action plan was also adopted that sits alongside the strategy, that details specific actions Council will complete.
- 3 Council also adopted a Reserves Management Policy in 2016, that applies to parks, reserves and open spaces. The policy outlines Council's position on a number of matters (such as access, landscaping and artworks). The policy also prevents the need to duplicate information in individual reserve management plans.
- 4 Staff are commencing the review process for both the Open Spaces Strategy and the Reserve Management Policy. These documents, and the Open Spaces Action Plan, are included as attachments to this report.
- 5 Staff are seeking feedback from the board (and other stakeholders) about any necessary amendments to the strategy and policy.
- 6 Staff will use the feedback received to produce both a draft strategy and draft policy. It is proposed staff will undertake formal consultation on both draft documents in November this year. It is anticipated Council will adopt an amended strategy and policy early in 2022. At that time, staff intend to work with communities and community boards to review Council's suite of reserve management plans.

Recommendation

That the Fiordland Community Board:

- a) **receives the report titled “Review of Open Spaces Strategy and Reserve Management Policy” dated 30 July 2021.**
- b) determines that this matter or decision be recognised as not significant in terms of Section 76 of the Local Government Act 2002.
- c) determines that it has complied with the decision-making provisions of the Local Government Act 2002 to the extent necessary in relation to this decision; and in accordance with Section 79 of the act determines that it does not require further information, further assessment of options or further analysis of costs and benefits or advantages and disadvantages prior to making a decision on this matter.
- d) provide feedback on possible changes to the Open Spaces Strategy.
- e) provide feedback on possible changes to the Reserves Management Policy.

Background

- 7 The Southland District has beautiful rivers, lakes, mountains and open plains. The open spaces provide abundant opportunities for outdoor pursuits including fishing, water pursuits, a huge range of tramps, walks, and hunting. There are also facilities for sporting activities. Southland District has 155 reserves, parks and open spaces, distributed over a land area of 30,400.94 km².

Open Spaces Strategy

- 8 In 2014, staff identified that a strategy was needed to help guide future activities and help decision making in Council’s open spaces. An engagement process was conducted to inform a draft strategy, and a thorough public consultation process was undertaken to help refine the draft and to ensure the strategy reflected community views.
- 9 In December 2014, Council adopted the Open Spaces Strategy. Open spaces include ‘green spaces’ such as:
- **undeveloped natural areas**
 - **stands of bush**
 - **parks**
 - **esplanades**
 - **reserves**
 - **gardens and planted areas**
 - **sports fields**
 - **playgrounds and other recreational areas**
 - **beautification areas**
- 10 The Open Spaces Strategy is a high-level document and provides guidance on how Council should undertake its activities. The strategy does not direct specific outputs, rather broader outcomes and priorities. The strategy is also designed to encourage a sense of pride in our open spaces, and overall, in Southland. When the strategy was adopted, it outlined the strategy itself would have a 10-year timeframe and would be reviewed after five years. On this basis, the review is slightly overdue.

- 11 An Open Spaces Strategy Action Plan was also produced to sit alongside the strategy. This action plan refers to the strategic priorities outlined in the strategy, and outlines specific actions that Council will perform to help achieve those priorities. This document was produced internally and was also adopted by Council in 2014. The action plan is to help inform the development of Council's Long Term Plan.

Reserve Management Policy

- 12 Council adopted the current Reserves Management Policy in 2016. The Reserves Management Policy provides a broad policy framework that applies to all reserves, parks and open spaces. The current policy covers Council's approach to access, leases and licences to occupy, landscaping, memorials and artworks. The policy is broad and prevents the need to duplicate information in individual Reserve Management Plans. The policy also references a number of other documents, including Council bylaws, that provide further regulatory information (e.g. rules on freedom camping, dog control and trading).
- 13 The Reserve Management Policy states that the policy will be kept under continuous review. This approach was taken as Reserve Management Plans are legally required to be under continuous review, and the policy is associated with these plans.

Issues

Reviewing the Open Spaces Strategy and Reserves Management Policy

- 14 Staff are in the very early stages of reviewing both the Open Spaces Strategy and the Reserves Management Policy.
- 15 At this stage, staff are seeking feedback from the board about possible changes to both documents.
- 16 Internal feedback so far has been that the Open Spaces Strategy is still a reasonably sound and relevant document.
- 17 Internal feedback about the Reserves Management Policy has been that it is quite a useful/practical policy but that it might be appropriate for the policy to just contain high level information, and for the more operational information currently in the policy to sit alongside the policy in a 'guideline'. Preliminary thoughts are also that the policy should contain compulsory requirements and that the guidelines should aid interpretation of the policy, and ensure operational practice is in line with the policy.

18 Staff intend the review of the strategy and policy to be completed as follows:

Date	Activity
August 2021	Seek feedback from community boards and other stakeholders on the Open Spaces Strategy and Reserves Management Policy
5 October 2021	Present a draft Open Spaces Strategy and a draft Reserve Management Policy to the Services and Assets Committee, and seek feedback
27 October 2021	Present the amended Open Spaces Strategy and Reserve Management Policy to Council and request it endorse the draft documents for public consultation
November 2021	Consult on the draft Open Spaces Strategy and draft Reserve Management Policy
15 December 2021	Present the submissions received on the documents to Council, and possibly have hearings
Jan/Feb 2022	Deliberate and adopt the documents.

Future work - reviewing reserve management plans

- 19 In 2022, staff are also going to start reviewing Council's reserve management plans. Reserve management plans provide direction for the day-to-day management of reserves and detail factors that impact upon reserves. They also establish clear directions for future management and development. The plans are a requirement of Section 41 of the Reserves Management Act 1977.
- 20 Council currently has a District Wide Reserve Management Plan 2003, and there is a series of individual plans/statements as follows:
- Manapouri Foreshore Reserve Management Plan 2003
 - Ivan Wilson Park Management Plan 2008
 - Mores Scenic Reserve Management Plan 2004
 - Kamahi Scenic Reserve Management Plan 2000
 - Dunsdale Recreation Reserve Management Plan 2000
 - Curio Bay Recreation Reserve Management Plan 2009
 - Kowhai Reach – Draft Open Space Management Statement
 - Taramea Management Plan (there is a memorandum of understanding between Council and Te Runanga o Ngai Tahu for the management of this space. The memorandum outlines the objectives of the Taramea Management Committee).
- 21 There will be separate engagement and consultation processes undertaken on the plans. To start the review, staff intend to have workshops with relevant community boards. This is likely to take place in early 2022.

Factors to consider

Legal and statutory requirements

- 22 The District's parks, reserves and open spaces are governed and regulated by a broad range of legislation, plans, policies and bylaws.
- 23 Legislation that is relevant to the Open Spaces Strategy and Reserves Management Policy include the Reserves Act 1977 and the Local Government Act 2002. The documents also work in cooperation with the District Plan, that is bound by the Resource Management Act 1991. The Reserves Act 1977 applies to land that is gazetted as a reserve under the Act.
- 24 The current Reserves Management Policy adheres to Environment Southland's Regional Plan and Ngāi Tahu ki Murihiku's Natural Resource and Environmental Iwi Management Plan 2008 - e Tangi a Tauira - The Cry of the People.
- 25 The policy refers to a number of Council's existing bylaws. This ensures the policy does not duplicate or contradict other regulatory instruments.
- 26 Neither the strategy nor policy are legally required.
- 27 Under Section 41 of the Reserves Act 1977, Council is required to have management plans for reserves and to keep the plans under continuous review.

Community views

- 28 In this report, staff are seeking feedback from the board to help identify necessary amendments to the Open Spaces Strategy and Reserve Management Policy. Staff will also seek early feedback from other community boards, local iwi, community organisations (such as the Southland Conservation Board, Sport Southland and Public Health South), and any other relevant government agencies.
- 29 A formal consultation process is also proposed to take place, at the end of this year.

Costs and funding

- 30 The costs of reviewing the Open Spaces Strategy and Reserves Management Policy will be met within existing (Council) budgets. Anticipated costs include staff time, travel, and advertising.
- 31 It is unlikely that amending the strategy and policy will significantly alter the projected funding needs for Council's open spaces.

Policy implications

Relationship with other policy/strategy documents

- 32 Staff will have to ensure the policy and strategy are consistent with a number of other documents, including:

- **Environment Southland’s Regional Plan**
- **e Tangi a Tauira - The Cry of the People**
- **The District Plan**
- **Council’s Long Term Plan 2021-2031**
- **Parks and Reserves Asset Management Plans**
- **Activity Management Plans**
- **Regional Spaces and Places Strategy**
- **Asset Management Policy**
- **Cemetery Management Policy**
- **Smoke free Open Spaces Policy**
- **Use of Unmanned Aerial Vehicle Policy**
- **Trading in Public Places Bylaw**
- **Dog Control Bylaw**
- **Freedom Camping Bylaw**
- **Cemetery Bylaw**
- **Alcohol Control Bylaw**

33 In 2020, the Community and Strategy Committee endorsed work to both facilitate and develop a Southland District vision 2050, and to develop internal strategies for Council. These pieces of work will be considered as the open spaces strategy review work is undertaken, to ensure there is cohesion and alignment.

34 On 23 June 2021, Council endorsed the Regional Spaces and Places Strategy that had been developed by Sport Southland and SportNZ, together with the three Southland councils and local funders. This strategy is about sport and active recreation facilities, and aims to identify and address regional sport and recreation needs. The strategy provides a strategic overview of current and projected facility requirements. Council elected to endorse the strategy rather than adopt it, which has given Council more flexibility in how it interprets and implements the recommendations.

35 It is intended both the Regional Spaces and Places Strategy and the Open Spaces Strategy will guide Council decision making for the Open Spaces activity. The Regional Places and Spaces Strategy will guide decisions on sport and active recreation facilities, and the Open Spaces Strategy will guide other decision making.

Organisational structure

36 Council’s move away from having community engineers (who focussed on a broad range of facilities and open spaces in particular communities) to having contract managers and an open spaces planner also enables Council to manage the District’s open spaces more holistically, strategically and effectively.

Analysis

Options considered

37 Council staff have identified two ways the board could proceed:

- **Option 1** - provide feedback to Council staff on possible amendments to the Open Spaces Strategy and Reserves Management Policy (verbally at this meeting or via a letter to staff);
or
- **Option 2** - provide no feedback at this time, and consider providing feedback when the Open Spaces Strategy and Reserves Management Policy are out for formal consultation.

Analysis of Options

Option 1 – provide feedback to Council staff on possible amendments

<i>Advantages</i>	<i>Disadvantages</i>
<ul style="list-style-type: none"> • The board will be involved in establishing the draft strategic and policy approach for open spaces. • Staff have more ability to incorporate feedback at this early stage in the review (rather than after the consultation process). • The board will also have the option to submit formally through the consultation process. 	<ul style="list-style-type: none"> • The board may want more time to liaise with community members on this matter.

Option 2 – provide no feedback at this time, and consider providing feedback during the formal consultation period

<i>Advantages</i>	<i>Disadvantages</i>
<ul style="list-style-type: none"> • Staff may still be able to incorporate the feedback received. 	<ul style="list-style-type: none"> • The board will not be involved in developing the draft documents. • Staff will have less ability to incorporate feedback later in the engagement process (after formal consultation).

Assessment of significance

- 38 This matter has been assessed as having a lower level of significance in relation to the Local Government Act 2002 and Council’s Significance and Engagement Policy.

Recommended option

- 39 It’s recommended the board proceed with Option 1.

Next steps

- 40 The proposed review process for the Open Spaces Strategy and the Reserves Management Policy has been discussed in the ‘issues’ section above. That section also outlines Council’s intention to start reviewing reserve management plans in 2022.

SOUTHLAND DISTRICT COUNCIL

OPEN SPACES STRATEGY 2014-2024

2

INTRODUCTION

Southland District's vast array of rivers, lakes, mountains and open plains make it a place of incomparable beauty. Our land area (30,198 km²) makes up 11% of New Zealand's total land area and our rugged coastline (2,877 km) is one of Southland's most treasured assets. Our wild places and open spaces are home to countless species of native flora and fauna.

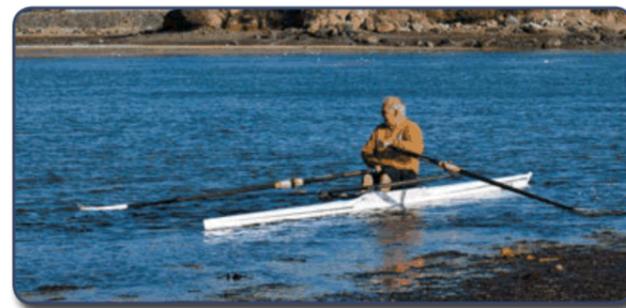

Southland District contains some of the most beautiful natural environment, landscapes and open space in the country, including mountains and wetlands. Our District contains two national parks, Rakiura and Fiordland, the Catlins, rolling green pastureland and the rugged scenery of northern Southland.

Every year, more than a million visitors come to

enjoy our cultural heritage and history. Visitors and residents admire the beauty and abundance of Southland's environment from our world heritage parks, internationally recognised wetlands, our great walks and ancient forests.

One of the attractions of living in Southland District is the lifestyle. Our open spaces provide abundant opportunities for outdoor pursuits including fishing, water pursuits, a huge range of tramps and walks, and hunting. There is also a range of sporting activities available – rugby, tennis and netball to name a few.

The strategy is designed to encourage a sense of pride in our open spaces, and overall, in Southland.

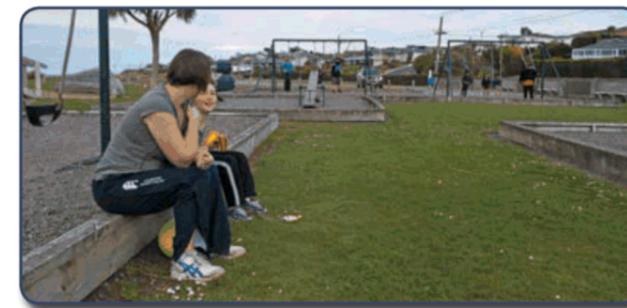

WHAT IS OPEN SPACE?

Open spaces include the 'green spaces' in our District such as our undeveloped natural areas, stands of bush, parks, esplanades and reserves, gardens and planted areas, sports fields, playgrounds and other recreational areas. It also includes beautification areas such as town squares and streetscapes, and the street trees and gardens that add to the beautification of our townships.

The focus of this strategy is on public open spaces owned or managed by Southland District Council but it is recognised that public open spaces such as that owned or managed by the Department of Conservation forms a significant part of the open space network in Southland District. We recognise that our District contains Department of

Conservation managed areas such as Rakiura National Park, Fiordland National Park which is a UNESCO world heritage area and the internationally recognised Awarua wetlands. Public open spaces provided by Council and other agencies need to be seen as an integrated network.

Private open spaces also make a considerable contribution to the network of open spaces in Southland, both in terms of physical and visual access to these areas. Where possible, we will work with all partners who manage land in this way, including central government, Iwi, private organisations and landowners, to ensure a focus on our vision.

3

OUR OPEN SPACES STRATEGY

OUR VISION						
A treasured network of open spaces that celebrates and enhances our natural environment and is appreciated and enjoyed by current and future generations						
PRINCIPLES - That guide everything we do						
<ul style="list-style-type: none"> Involve the community in managing and maintaining open spaces Take the long view - consider future generations Make best use of the network of open spaces and assets that we already have Evoke a sense of pride in Southland and our community 			<ul style="list-style-type: none"> Ensure we use our resources wisely and work within financial constraints Transparent and accountable decision making and management Work with partners and stakeholders to achieve outcomes 			
OUTCOMES - What are we trying to achieve						
Our natural environment and landscape is treasured and cared for by all; now and into the future	Our open spaces encourage and enable a wide range of people to play and enjoy a range of sports	Our open spaces are enjoyed and used for a wide range of active and passive recreational activities	Our open spaces are places where our communities meet, connect and celebrate	Our open spaces reflect and celebrate our history, our people and our local character	Our open spaces are safe, inspiring, well designed and welcoming to all	Our network of open spaces meet the needs of current and future generations
<ul style="list-style-type: none"> Celebrate our natural and unspoilt landscape and coast Protect and enhance our natural landscape and ecological areas Conserve and enhance our native biodiversity Increase education and awareness 	<ul style="list-style-type: none"> Provide a range of sports fields and surfaces to meet changing demands and community needs Through the provision of public open spaces - provide opportunities to participate and excel in sport 	<ul style="list-style-type: none"> Provide for diverse recreational needs and enjoyment Through the provision of public open spaces - provide opportunities to participate in a range of recreational pursuits 	<ul style="list-style-type: none"> Public open spaces are used by our communities for a range of events and activities Provide public open spaces that encourage our communities to meet and connect Celebrate our culture and history 	<ul style="list-style-type: none"> Reflect our communities' identity, needs and views Actively manage cultural and historic heritage Facilitate and support diverse and multi cultural usage Use public open spaces to create attractive and welcoming places and areas Provide places and spaces that attract businesses and visitors 	<ul style="list-style-type: none"> Create safe, accessible and enjoyable places Ensure design reflects local character and landscape Ensure quality, innovative and creative design Balance competing demands for the usage of public open space Design and manage fit for purpose public open spaces 	<ul style="list-style-type: none"> Understand what we already have - identify and respond to gaps in the network Ensure public open space is appropriately located and accessible Plan for demand and changing needs Promote our public open spaces Link our network of public open spaces
ACTIONS - What we will do to get there						
Open Space Action Plan: Actions to implement the priorities						

4

PURPOSE OF THE OPEN SPACES STRATEGY

The Open Spaces Strategy sets out a strategic direction to guide the provision of and planning for, and the consistent management and maintenance of reserves and open spaces within Southland District, to meet current and future needs.

This strategy focuses on the public open space network that is owned and or managed by Southland District Council for recreation or protection. Success would be seen when our:

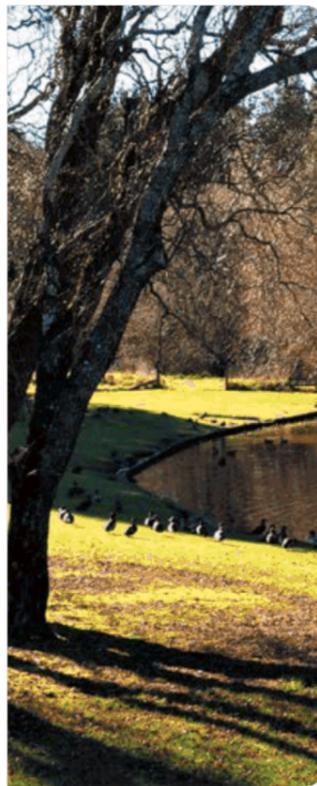

- natural environment and landscape is treasured and cared for by all; now and into the future
- open spaces encourage and enable a wide range of people to play and enjoy a wide range of sports
- open spaces are enjoyed and used for a wide range of active and passive recreational activities
- open spaces are places where our communities meet, connect and celebrate
- open spaces reflect and celebrate our history, our people and our local character
- open spaces are safe, well designed and welcoming to all
- network of open spaces meet the needs of current and future generations, and
- strategy guides asset planning and use of public open spaces

The Open Spaces Strategy will guide and inform policy and planning, inform the Council's Long Term Plan, the Parks Asset Management Plan and Reserve Management Plans to ensure quality open spaces.

5

6

COUNCIL'S ROLE IN OPEN SPACE

Southland District Council has a number of different roles relating to open spaces. These are:

Provider

The provision, development and maintenance of public open spaces is a core component of Council's business. Council also develops Reserve Management Plans that outline the purpose, management and development requirements for parks and reserves. Council and other agencies support activity, such as events and sports occurring in our public open spaces.

Partner

Council has the opportunity to enter into partnerships with others who provide access to either public open space or private open space, further enhancing the overall network of open space.

Protector

Council uses legislative tools such as the Reserves Act 1977, Local Government Act 2002, and the Resource Management Act 1991 to protect and preserve the open spaces network for the enjoyment of current and future generations.

Advocate

Through strategic documents, plans and information Council can advocate to others on the importance of our natural environment and open spaces to our communities.

Researcher and Planner

Ongoing research and planning is required to ensure that the open spaces network meets community needs both now and for future generations. Research and planning also helps ensure that Council plans are responsive to changing needs and preferences.

WHY IS OPEN SPACE IMPORTANT?

Open space serves a variety of different purposes.

Both residents and visitors benefit from access to and enjoyment of our District's open spaces. Be it our coast, parks or sports fields, the pleasure of open spaces for relaxation, timeout, sight-seeing, sport or recreation is important to everyone.

The public open spaces network generally contributes to:

Social	Environmental
<p>Open spaces enhance people's sense of physical, psychological and spiritual health and wellbeing and provides opportunities for:</p> <ul style="list-style-type: none"> socialising, connecting and meeting up with others participation in sports and active recreation relaxation and passive recreational pursuits, such as walking, picnics, and barbecues learning and playing 	<p>Open spaces provide the opportunity to:</p> <ul style="list-style-type: none"> protect areas of significant ecological value conserve a representative spectrum of indigenous vegetation and wildlife protect landscape features of significance protect and enhance the quality of our environment
Cultural	Economic
<ul style="list-style-type: none"> open spaces protect and preserve cultural and natural heritage resources such as significant geological and archaeological sites, historic buildings, monuments and public art many of our open spaces have special significance for Māori and provide the opportunity to protect and preserve waahi tapu as well as the opportunity to inform and educate about tangata whenua public open spaces help define and reflect our communities' sense of identity and provides opportunities for celebrating who we are 	<ul style="list-style-type: none"> open spaces make a significant contribution to the economy and economic competitiveness by enhancing the overall quality of life and visual identity of the District providing a context for the national and local recreation and tourism industries – our unspoilt open spaces draw tourists from all over the District, New Zealand and the World

7

8

OUR CURRENT PUBLIC OPEN SPACE

Southland District Council owns over 150 reserves, parks and open spaces, totalling about 1250 hectares in area. Our reserves, parks and open spaces vary in size, type and use and provide for a range of recreational experiences from unaltered natural environments to highly developed, manmade environments.

Our reserves, parks and open spaces range from developed and fully managed areas such as our 34 sportsfields, 36 playgrounds, 38 tennis and netball courts and three skateboard facilities to low maintenance, low management areas.

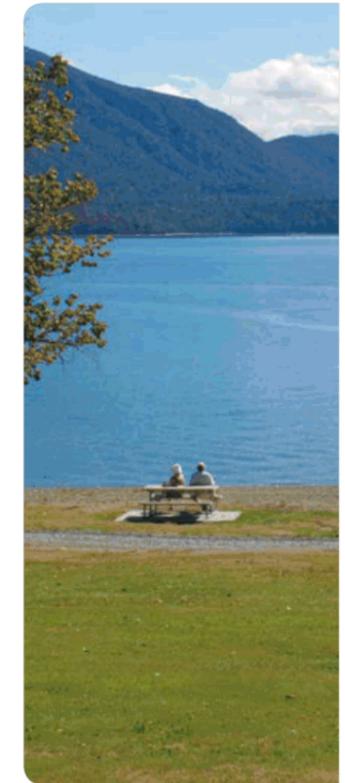

HOW DOES THIS STRATEGY FIT IN?

The three key pieces of legislation relating to the management and provision of open spaces are the Reserves Act 1977, the Local Government Act 2002 and the Resource Management Act 1991. These Acts have been taken into account in the development of this strategy. Further detail about how these Acts impact on the provision and management of open spaces is set out in Appendix 1.

Open spaces play an important role in achieving our vision and aspirations for the Southland District. The diagram

below shows how this strategy fits with legislation, supports local aspirations and directs other key Council plans, such as the Long Term Plan, District Plan and Reserve Management Plans.

The diagram also shows that as land use and management is inter-related with other environmental processes and therefore other agencies that manage them. Southland District Council also takes into account the objectives and goals contained within other regional environmental management strategies. These include Te Tangi a Tauria - Ngāi Tahu's Regional Management Strategy for Southland, the Department of Conservation's strategies and plans and Environment Southland's plan.

9

10

CHALLENGES AND OPPORTUNITIES

Population change

Our population is changing and this is likely to have an impact on how much, what type and where we need to provide public open spaces in the future. We may also need to change the way in which we design, manage and maintain our public open spaces to suit the future needs and preferences of our communities.

Our population is growing but is likely to decline in the longer term - The population of Southland District grew by 4.1% between 2006 and 2013. However, population projections suggest that in the longer term the population of Southland may decline.

Our population is ageing - The population of Southland Region is ageing at a greater rate than New Zealand overall. In addition, Statistics New Zealand Subnational Population Projections (2006, base) predict that Southland Region will continue to have a net migration loss of people between the ages of 15 and 29 and a substantial net migration gain of those over 65. In 2013, the median age of Southland's population was 40 years, while nationally, the median age was 37 years. By 2021, projections suggest that the Southland Region will have more elderly residents than children.

Our population is diverse - The District has a predominantly European population, with an 11.4% Maori population, according to the 2013 Census. (Statistics NZ). This is changing with recent increases in migrant populations, including Asian, European, African and Pacific groups. As our population grows more diverse we need to ensure that we understand the needs and preferences of different groups in our community so that we can plan and provide open spaces to meet the needs of all parts of our community.

Declining townships, expanding fringe areas

Planning for and managing public open spaces and other types of infrastructure is challenging with a highly dispersed population across a large land area with multiple townships and settlements, some of which are small and geographically distant. As our population grows and our settlement patterns shift it is likely that demand for and usage of public open space will change.

Where we want to live is changing - Around half of our population live in a rural environment, while the balance live in one of the District's 28 settlements. A new spatial pattern in where people are choosing to live in Southland is emerging. Population change between the 2001 and 2013 Censuses shows a decentralisation of population in the District. Census data shows that the population of some townships is decreasing whilst the population is increasing in surrounding areas. However, as a large part of the District's population reaches retirement age, it is possible that the trend will reverse. Older people may move to townships to gain better access to services, creating rural hubs in Te Anau and Winton, and the areas surrounding Invercargill.

Changes in community preferences and recreation trends

Our open spaces provide abundant opportunities for recreation and sport. Walking, tramping, gardening, cycling and mountain biking, swimming and fishing are among the recreational and sporting activities that we most commonly participate in. However, as our population ages and changes this may change and we may face competing demands for the way in which our open spaces are used for recreation and sport. When new sports and recreational pursuits become more popular demand grows and people, groups and clubs increasingly want to use open space which may already be used for other more traditional activities. We need to balance these demands.

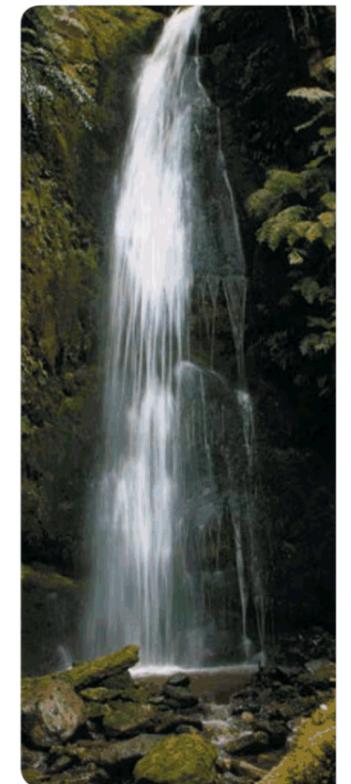

Environmental pressures

Our environment, open spaces and native wildlife are affected by climate change, the pressures of human habitation and usage for economic and recreational purposes. While environmental pressures are generally mitigated through the District Plan, it is helpful to recognise the effects on our open spaces within this strategy as well.

Our climate is likely to continue to change in the longer term. Over the longer term climate change is expected to result in more frequent extreme weather events such as droughts or floods and sea levels may rise. Our open spaces and native biodiversity are likely to be affected to a greater or lesser degree depending on their sensitivity and ability to adapt. Our native biodiversity is important and some of our public open spaces already contain or could be planted with native trees and plants.

Our beautiful natural environment, rivers, lakes, mountains, open plains and rugged coastline and our native wildlife are treasured assets which must be protected and preserved for the pleasure and enjoyment of future generations.

11

12

VISION

A treasured network of open spaces that celebrate and enhance our natural environment and is appreciated and enjoyed by current and future generations

PRINCIPLES

The principles below underpin the way we will work to achieve the outcomes and vision set out in this strategy. We will:

- Involve the community in managing and maintaining open space
- Take the long view - consider future generations
- Make best use of the network of open space and assets that we already have
- Ensure we use our resources wisely and work within financial constraints
- Transparent and accountable decision making and management
- Work with partners and stakeholders to achieve outcomes

OUR OUTCOMES AND STRATEGIC PRIORITIES

Our natural environment and landscape is treasured and cared for by all; now and into the future our natural environment is critical to our wellbeing.

Access to reserves and open spaces across the District helps to increase understanding and awareness of the value and importance of our environment. Our open spaces provide the opportunity to protect special landscapes and areas of ecological value and to enhance the quality of our environment. They provide opportunities for education and lifelong learning whilst also creating opportunities for the community to participate in caring for and enhancing our environment.

Council, as a landowner, has the opportunity to use its network of public open space to preserve and protect our natural environment and native flora and fauna. Council will prevent the planting of pest plants in our open spaces, under the 'good neighbour' principle.

Council can also work with other agencies and private landowners to preserve and enhance our special places and natural environments.

Tourism, particularly eco tourism continues to be a major contributor to the Southland economy. Whilst many visitors may come to Southland to visit national parks such as Fiordland and Rakiura, Council is also a provider of parks and open spaces which are used by visitors. The provision of high quality public open space and infrastructure has benefits for both visitors and local residents alike. Council recognises the potential detrimental effect of increasing visitor numbers on our natural environment and acknowledges that these effects need to be managed and mitigated.

Outcome	Strategic Priorities	We'll Know We're Succeeding When
<p>Our natural environment and landscape is treasured and cared for by all; now and into the future</p>	<ul style="list-style-type: none"> • Celebrate our natural and unspoilt landscape and coast • Protect and enhance our natural landscape and ecological areas • Conserve and enhance our native biodiversity • Increase education and awareness 	<ul style="list-style-type: none"> • Our natural assets and biodiversity are enhanced • People care for our environment and actively participate in local projects

13

14

Our open spaces encourage and enable a wide range of people to play and enjoy a range of sports

Physical activity is beneficial for our health and wellbeing. Our open spaces, sports fields and surfaces provide opportunities to participate in sport and physical activity. Both organised and informal sporting activities provide opportunities to participate, keep fit, meet people and learn new skills.

Ongoing planning is required to ensure that the open spaces network meets the changing needs and preferences of our communities.

Many groups are involved in providing recreational facilities. It is important that all parties co-ordinate their efforts to avoid duplication or gaps in provision. Council will continue to monitor community and visitor preferences and needs and work with providers and other groups to ensure a coordinated approach.

Outcome	Strategic Priorities	We'll Know We're Succeeding When
Our open spaces encourage and enable a wide range of people to play and enjoy a range of sports	<ul style="list-style-type: none"> Provide a range of sports fields and surfaces to meet changing demands and community needs Through the provision of public open spaces - provide opportunities to participate and excel in sport 	<ul style="list-style-type: none"> Our communities participate in sports Our communities are more active Our public open spaces, sports fields and surfaces are well used

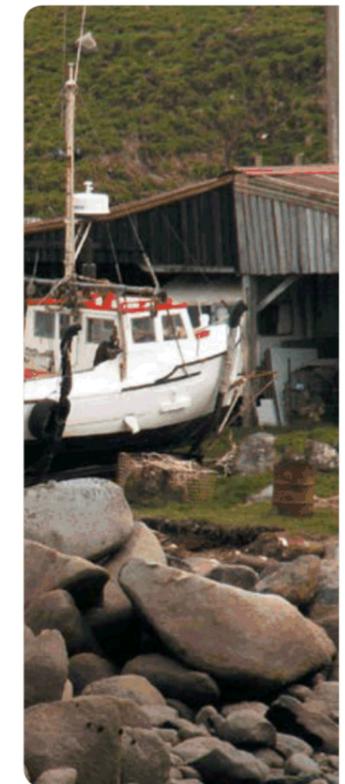

Our open spaces are enjoyed and used for a wide range of active and passive recreational activities

Both active and passive recreational activities play an important role in our sense of physical and mental wellbeing; enabling people to participate fully in work, family and community life.

Southland District has a network of quality, well maintained reserves, parks, open spaces and playgrounds.

Changing demographics and changing recreational preferences mean that Council needs to regularly reassess the amount, location and types of parks and public open spaces that we provide to ensure continued passive recreational opportunities such as dog walking, and relaxing in our environment.

Outcome	Strategic Priorities	We'll Know We're Succeeding When
Our open spaces are enjoyed and used for a wide range of active and passive recreational activities	<ul style="list-style-type: none"> Provide for diverse recreational needs and enjoyment Through the provision of public open spaces - provide opportunities to participate in a range of recreational pursuits 	<ul style="list-style-type: none"> Our communities participate in a wide range of recreational activities Our public open spaces are well used for a variety of recreational activities Our communities have improved mental and physical health

15

16

Our open spaces are places where our communities meet, connect and celebrate

Public open spaces provide places for people to meet, connect, and interact, increasing social cohesion and strengthening our community spirit. Our public open spaces are used by our communities for a range of events and activities.

This provides our communities with the opportunity to enjoy and celebrate local identity and helps to ensure that our communities are thriving vibrant places to visit, live, work and play.

Outcome	Strategic Priorities	We'll Know We're Succeeding When
<p>Our open spaces are places where our communities meet, connect and celebrate</p>	<ul style="list-style-type: none"> Public open spaces are used by our communities for a range of events and activities Provide public open spaces that encourage our communities to meet and connect Celebrate our culture and history 	<ul style="list-style-type: none"> Public places and open spaces are well used by people of all ages People of all ages connect and participate in civic and community life We have a diverse range of well attended festivals, events and cultural activities that celebrate who we are Residents of all ages have a good quality of life Non-traditional uses of open spaces, such as farmer's markets

Our open spaces reflect and celebrate our history, our people and our local character

Some of our public open spaces are also special places which contain community buildings such as community halls, heritage buildings and monuments. These are often the places where we gather as communities or to commemorate and celebrate our history. Community orchards and heritage fruit trees are an example of conserving heritage and celebrating local character.

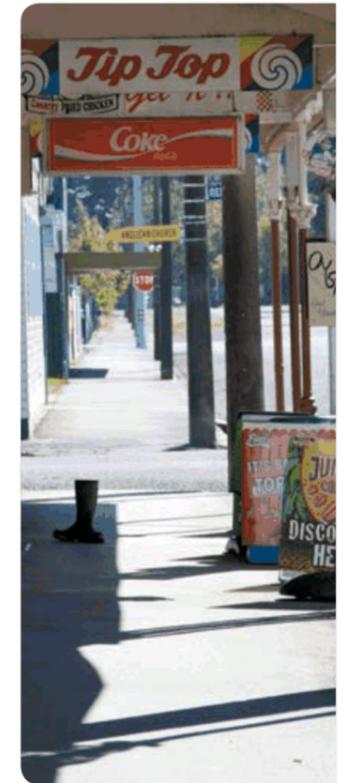

These places and facilities give our communities a sense of identity, but as our communities shift or decline we need to plan to manage our network so that it continues to

deliver good value, whilst protecting and preserving those things that we value most.

Council will work in partnership with communities and other agencies to achieve this.

Our public open spaces provide opportunities to protect and preserve places and sites that are of special significance to Tangata Whenua. Council will continue to work with all our Runanga and with Te Ao Marama Inc., including to, identify sites and areas that are of significance, to ensure access and to encourage joint management of reserves and public open spaces that are of special significance.

Outcome	Strategic Priorities	We'll Know We're Succeeding When

17

18

Our open spaces are safe, well designed and welcoming to all

Well-designed public open spaces which reflect the local character of our landscape and distinct communities can promote a source of community pride. When our communities feel safe and have a sense of pride in our public open spaces they are more likely to use and enjoy these spaces. We want our public open spaces to be accessible and all members of our communities to have the opportunity to access the things that they need to have a good quality of life. Southland District Council's Smoke Free Open Spaces Policy aims to promote healthy lifestyles and discourage smoking in public outdoor areas where people, particularly children and young people, gather.

As our communities change and grow there may be demand to use our public open spaces for different recreational activities.

We want to encourage all parts of our communities to use and enjoy our parks and open spaces but need to be mindful that how our parks are used can impact on nearby residents and on other users. We need to balance these demands.

Safety will be of high importance in our open spaces. All equipment in open spaces will continue to be fit for purpose, and meet all health and safety requirements. As well, we will meet the accessibility needs of our residents.

We will endeavour to keep our open spaces safe, and free from crime.

Outcome	Strategic Priorities	We'll Know We're Succeeding When
Our open spaces are safe, well designed and welcoming to all	<ul style="list-style-type: none"> Create safe, accessible and enjoyable places Ensure design reflects local character and landscape Ensure quality, innovative and creative design Balance competing demands for the usage of public open space Design and manage fit for purpose public open spaces 	<ul style="list-style-type: none"> We have a sense of pride in where we live Our public open spaces are well used for a variety of recreational activities

Our network of open spaces meet the needs of current and future generations

Southland District has a significant network of quality, well maintained reserves, parks and open spaces. But ongoing research is needed to ensure that Council understands and is responsive to changing needs and preferences. Ongoing planning is required to ensure that Council's network of public open space meets community needs both now and for future generations. To assist with good decision making, Southland District Council has put in place criteria that will be used when making decisions about the strategic acquisition and the divestment of public open spaces. These are set out in Appendix 2.

Many of Southland's parks and reserves and associated facilities such as community halls are administered and managed locally.

This is advantageous to both the users and to Council as reserves and facilities can be managed to meet the needs and preferences of the local community. However, this approach makes planning and decision making at the district level more difficult and means that our local public open spaces may not be consistently managed. Council remains committed to promoting local administration, in accordance with Council strategies and plans. Council will continue to take an overview role, to provide guidelines to local administrators and to support and facilitate good management and decision making.

Outcome	Strategic Priorities	We'll Know We're Succeeding When
Our network of open spaces meet the needs of current and future generations	<ul style="list-style-type: none"> Understand what we already have - identify and respond to gaps in the network Ensure public open spaces are appropriately located and accessible Plan for demand and changing needs Promote our public open spaces Link our network of public open spaces 	<ul style="list-style-type: none"> Our public open spaces meet the needs of our communities Our public open spaces are accessible

19

20

PUTTING OUR STRATEGY INTO ACTION

The aspirational vision and outcomes set out in this Strategy will be put in place through key Council plans such as the Long Term Plan, District Plan and Reserve Management Plans and through our Public Open Spaces Action Plan.

The Public Open Spaces Action Plan forms a compendium document to this strategy which will be reviewed and updated by Southland District Council at least every three years, to inform the development of the Council's Long Term Plan.

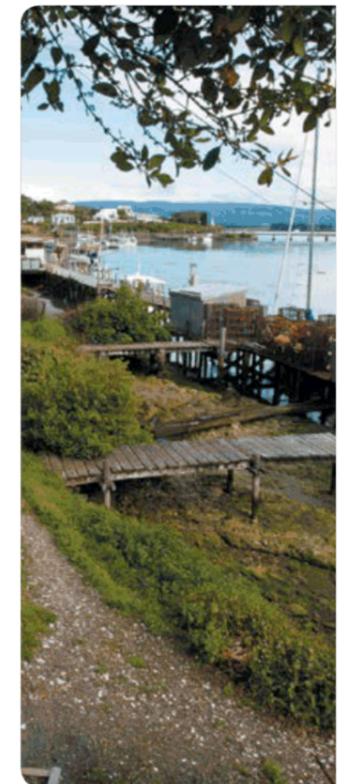

MONITORING AND MEASURING THE SUCCESS OF THE STRATEGY

We will monitor and review whether we are successful in achieving the outcomes set out in this strategy. This will help us to understand whether our approach to providing, managing and maintaining our public open space is helping us to achieve our aspirations.

Progress towards the outcomes set out in the Strategy will be monitored and reported on in Council's Annual Report, our Annual Customer Survey and through other Council reports.

Environment Southland also undertakes research and produces a State of the Environment Report which will help us to understand the health of our natural environment and biodiversity.

We will review this strategy after five years.

21

22

APPENDIX 1: KEY LEGISLATION

The Reserves Act 1977

The main purpose of the Reserves Act 1977 is to protect reserve land and ensure that it is available for public use and enjoyment. Council has responsibility under the Reserves Act 1977 for the management of reserves within the District. As part of this function the Council, as an administering body under the Reserves Act 1977, is required to prepare management plans for the reserves that it controls. Management Plans under the Reserves Act outline Council's general intentions for use, development and maintenance of its reserves.

Local Government Act 2002

The LGA includes a wide range of provisions relating to the operation of local government, many of which impact directly or indirectly on the management and operation of parks. It also puts restrictions on local council to dispose of land set aside for recreation or community use such as parks and reserves not protected by the Reserves Act.

Resource Management Act 1991

The Resource Management Act 1991 requires Council to prepare a District Plan "to promote the sustainable management of natural and physical resources". The plan seeks to manage land use activities on the basis of their effects on the

environment. Council has a number of different roles with regard to reserves and open spaces including as a landowner, an advocate and as a regulatory authority under the Resource Management Act 1991. The District Plan, this Strategy and associated General Policies For Reserves and Open Spaces operate in a hierarchical manner to guiding management of reserves and open spaces and the preparation of management plans.

Other Acts and Standards

The Southland District Council also has obligations under the Health and Safety in Employment Act, Treaty of Waitangi, Ngāi Tahu Claims Settlement Act and the Building Act. In providing for reserves and open spaces the Southland District Council must be aware and take into account the matters and tasks that must be performed under these Acts.

Over recent years a system of standards for safety in New Zealand and Australian playgrounds has been developed. Although the standards are not mandatory it is recognised that the standards set a minimum level of acceptable care, by industry experts. Council must take these standards into account for all facets of playground design, installation, surfacing and maintenance.

APPENDIX 2: ACQUISITION AND DIVESTMENT CRITERIA

Acquisition Criteria

Land being considered for acquisition as public open space should:

- i. Protect significant historic heritage, natural features or significant amenity landscapes.
- ii. Improve the physical, ecological, recreational or landscape linkages between places.
- iii. Secure or improve access to and along water bodies.
- iv. Provide accessible quality open space and recreation opportunities.
- v. Improve recreational opportunities, or access to or use of underutilised reserve areas.

Divestment Criteria

Southland District Council will consider the following criteria when determining the revocation of the reserve status of land and its consequent sale:

- i. That the purpose for which the land was originally obtained and classified under the Reserves Act 1977 is no longer relevant either at present, or in the foreseeable future.
- ii. That current or foreseeable future usage of the land for reserve purposes is unlikely, or that greater benefit could be obtained by disposing of the land so that other land can be purchased elsewhere.
- iii. That the revocation and disposal will be advantageous to Southland District Council.
- iv. That funds obtained through selling such land will be used for reserve development purposes within the District.
- v. That due consideration is given to relevant community opinion concerning land disposal.
- vi. That consideration is given to disposing of smaller parcels of land where the proceeds can be used to rationalise reserve distribution.

23

Public Open Space Action Plan

This Public Open Space Action Plan sets out key actions that Southland District Council will undertake to deliver on the vision and aspirations set out in the Southland District Councils' Open Space Strategy. The Public Open Space Action Plan which will be reviewed and updated by Southland District Council at least every three years, to inform the development of the Council's Long Term Plan. The action plan indicates the time period over which actions will occur or the timeframe within which it is expected that actions will be completed. Actions which are listed as:

- Ongoing - are actions which Council will need to undertake on a regular basis and do not have an end date.
- Short-term - are actions which Council expects to complete within the 12 months to three years.
- Medium-term - are actions which Council expects to complete within the next three to five years.
- Long-term - are actions which Council expects to complete within the next five to ten years.

Outcomes	Strategic Priorities	Actions	Timing	We'll Know We're Succeeding When

Reserves Management Policy

Group Responsible: Strategic Manager – Property

Date Approved: 28 September 2016

File No: r/16/3/3262

1. Purpose

This policy provides guidance on the administration, use, maintenance and development of reserves across the Southland District

2. Scope

Policy statements in this document apply to all parks, reserves and open spaces controlled by Southland District Council unless specific exemption is provided in individual reserve management plans.

3. Definitions

TERM	MEANING
Activity Management Plan (AMP)	The Parks and Reserves Management Plan is used to document Council's management practices for parks and reserves over a 30 year period
Council	Southland District Council as the land owner/administering body of reserves
Long Term Plan (LTP)	Southland District Council's Long Term Plan. It is also referred to as the 10 Year Plan
Parks, Reserves and Open Spaces	The term reserve refers to any parcel of land owned, administered and/or managed by Council, as a reserve, park or open space
Reserve Management Plan	Reserve Management Plans are a requirement of Section 41 of the Reserves Management Act 1977. Reserve Management Plans provide direction for the day to day management of reserves and details about factors that impact upon reserves. They also establish clear directions for future management and development
Unmanned Aerial Vehicles/UAVs	The term Unmanned Aerial Vehicle (UAV) is defined in the Southland District Council Unmanned Aerial Vehicles Policy. The term UAV covers all electric powered remote controlled model aircraft, including the type commonly referred to as "drones" that are capable of vertical take-off and landing and small land lunched gliders with less than 1.5 metre wing span

4. Background

Southland District has 155 reserves, parks and open spaces, distributed over a land area of 30,400.94 km². Southland District's reserves offer an extensive range of recreational opportunities and environmental characteristics.

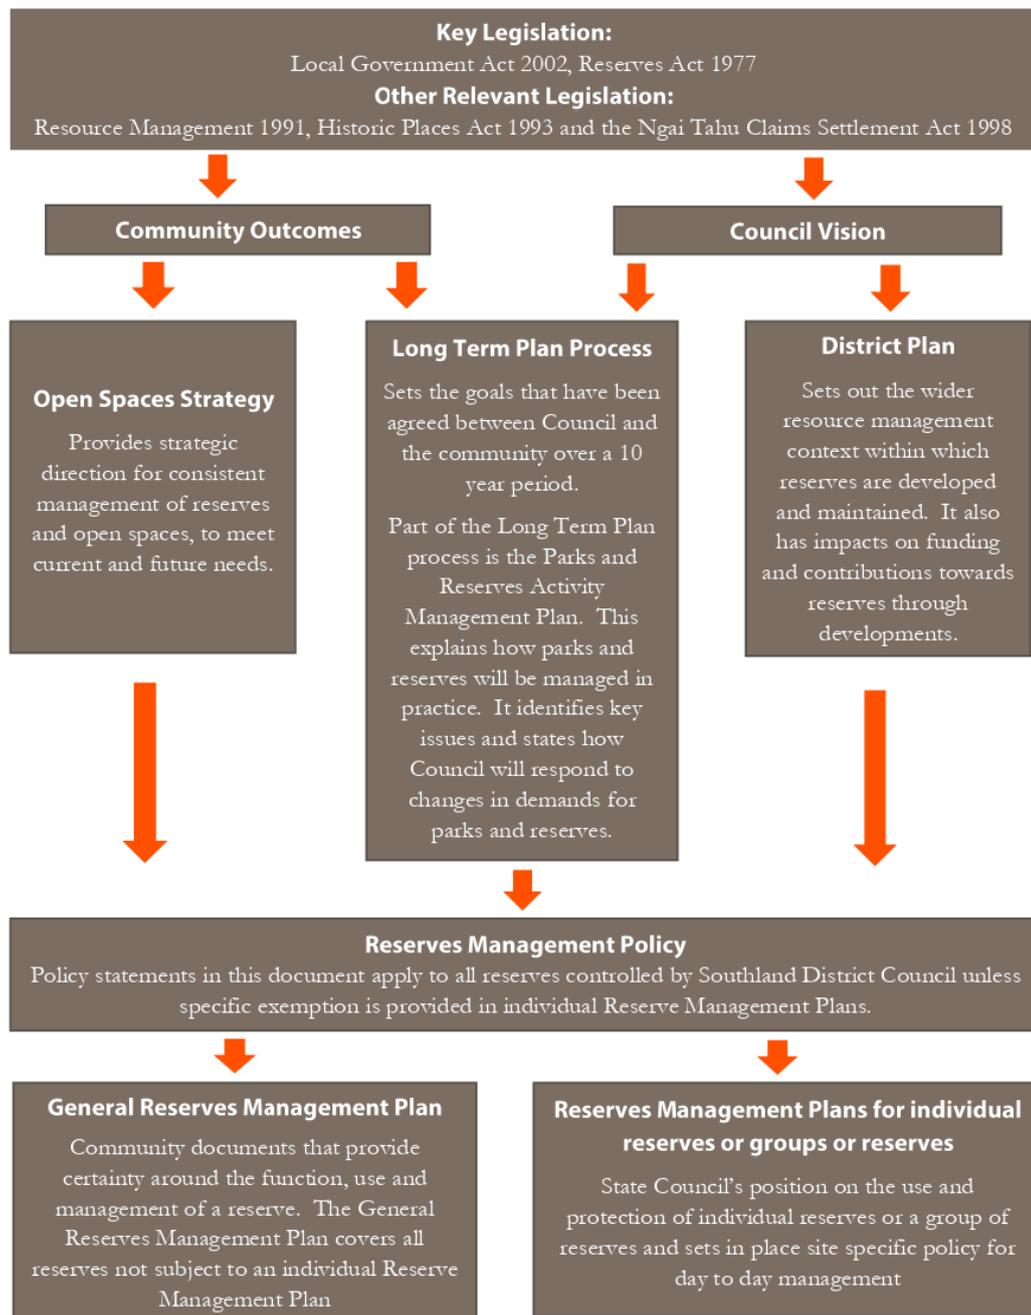

Reserves owned, administered and/or managed by Council have two distinct forms of legal status:

- land held subject to the Reserves Act 1977, and classified according to its principal purpose
- freehold land held by Council in fee simple title for parks purposes but not held under the Reserves Act.

specifies in general terms the purpose of each class of reserve. The Act also requires that each reserve be managed in accordance with its purpose and classification.

The terms parks, reserves and open spaces could also refer to parcels of land held by the Council for a wide variety of purposes akin to those described in the Reserves Act or the Local Government Act 2002. Not all of these parcels of land are protected under these Acts.

Southland District's parks, reserves and open spaces are governed and regulated by a broad range of legislation, plans, policies and bylaws.

4.1 The Reserves Act

The Reserves Act 1977 applies to land that is gazetted as a reserve under the Act. While the term park(s) is used in this document, not all parks are reserves under the Reserves Act 1977. The management of these parks, however, will not differ in general terms from reserves as defined by the Reserves Act 1977.

Under Section 41 of the Reserves Act 1977, the Council is required to keep Reserve Management Plans under continuous review. Since Reserve Management Plans are aligned to the General Reserves Management Policy, this policy will also be kept under continuous review.

4.2 Local Context

As well as aligning with other Southland District Council Plans and Policies, the General Reserves Management Policy also adheres to Environment Southland's Regional Plan and Ngāi Tahu ki Murihiku's Natural Resource and Environmental Iwi Management Plan 2008 - e Tangi a Tauira - The Cry of the People.

5. Policy Statements

5.1 Council Approval

Some activities outlined in this policy require specific approval or authorisation from the Council. The nature and context of the activity will determine how approval may be granted. For further information on how to obtain approval for specific activities, please contact Southland District Council.

5.2 General Access

Unless it is limited by the Reserves Act 1977, public access to reserves is a right.

The Council provides a level and standard of access to reserves that is appropriate to how each reserve is used.

Several factors may impact on public access to reserves. These include:

- leases or licences to occupy the reserve held by third parties
- safety issues
- activities that are occurring on a reserve for a period of time (eg planting or construction)
- other restrictions under the Reserves Act 1977.

Clubs and organisations may gain exclusive use of a reserve for a specific period of time (eg during organised sports teams training or match occasions) with prior written approval from the Council.

From time to time, reserves may be closed to the public and a rental charged for the entry by an organisation staging a special event. This is subject to Section 53(1)(e) of the Reserves Act 1977 and requires the written approval of the Council.

5.3 Pedestrian Access

If required, pedestrian access will be controlled by the provision of walking tracks, footpaths and footbridges.

Where practical, access to reserves and reserve facilities will be inclusive and will consider universal design. Walking tracks will be maintained to the appropriate standard developed by the Department of Conservation and Standards New Zealand

as set out in the "New Zealand Handbook - Tracks and Outdoor Visitor Structures (SNZ HB 8630:2004)".

5.4 Vehicle Access

Council may provide access roads and parking facilities within reserves. Motorised vehicles, other than maintenance vehicles, must only be used on roadways or parking areas unless prior written approval from the Council has been obtained.

Use of non-motorised vehicles (such as bicycles, skateboards and roller-blades) is permitted provided their use does not endanger other reserve users, cause damage to the reserve or make undue noise.

Non-motorised vehicles should not be used on walking tracks unless there is a sign indicating that their use is permitted.

5.5 Leases and Licences to Occupy

The Council may enter into formal lease agreements on reserve land when the land is available and there is a clear requirement for consistent use or service or a demonstrated opportunity for reliable improvement in service. Management responsibilities of the lessee will be clearly identified in the lease agreement.

5.6 Animals

Dog access to parks and reserves is determined by Southland District Council's Dog Control Bylaw 2015. The Dog Control Bylaw 2015 also determines what degree of control is required on reserves where dogs are allowed.

Signage or information in the Reserve Management Plans will indicate if other animals are specifically excluded on any reserve.

Council may use grazing as a management tool on reserves. Grazing will comply with the Southland District Council Roading Bylaw and the Southland District Council Keeping of Animals, Poultry and Bees Bylaw.

5.7 Aircraft and Helicopter Landings

Landing an aeroplane, helicopter or any kind of flying machine in a Council reserve is not permitted without prior written approval from the Council.

Emergencies are an exception to this rule. Parties wishing to use any reserve for the purpose of landings during special events or for approved training exercises should contact Southland District Council for further advice.

5.8 Sale and Consumption of Alcohol

Consumption of alcohol in public spaces is regulated by legislation and the Alcohol Control Bylaw. The sale and supply of alcohol is regulated by the Sale and Supply of Alcohol Act 2012. Council permits special licences to be issued for the sale and supply of alcohol on reserves. Club licences may be issued to lease holders within reserves.

5.9 Trading

Trading in reserves must comply with Section 54 (1) (d) of the Reserves Act 1977 and may be subject to the Trading in Public Places Bylaw.

Section 54 (1) (d) of the Reserves Management Act 1977 allows trading to occur under leases and licences or for a temporary occupation of not more than six consecutive days. Trading activities must be necessary to enable the public to obtain the benefit and enjoyment of the reserve or for the convenience of persons using the reserve.

Applications to trade in reserves for a period of not more than six consecutive days will be administered under the Trading in Public Places Bylaw. Applications to trade in reserves for a longer time period will require a lease or licence. If trading is contemplated under the relevant Reserve Management Plan, applications will not be publicly notified. If trading is not contemplated under the relevant Reserve Management Plan, applications will be publicly notified and an opportunity for objections will be provided.

When making decisions regarding applications to trade on reserves, Council will consider a number of factors including the nature of trading, its impact on other reserve users and the effect on the reserve and existing infrastructure and facilities.

5.10 Fires

Lighting fires outside of a contained barbecue is not permitted on reserves unless there is prior written approval from the Council and the Southern Rural Fire Authority.

5.11 Fireworks Displays

Fireworks displays must:

- be approved by the local community board, community development area subcommittee or Council
- be undertaken only by people authorised by Council
- have a safety plan (including fire control) that has been approved by the Council

- have any approvals required under the Hazardous Substances and New Organisms Act
- have a fire permit issued by the Southern Rural Fire Authority if the display is during a Restricted Fire Season.

5.12 Buildings and Structures

The number of buildings and structures on reserves will be limited to a level that facilitates the safe and appropriate use of each reserve. Sharing facilities by more than one club or group is encouraged.

All new buildings or major changes to existing buildings and structures on reserves require approval from Council as the land owner of the reserve. Council will consider how buildings and structures will integrate with the natural environment of the reserve. The Building Act 2004 and the Southland District Plan may also include other requirements which must be met.

Buildings and structures will be maintained to a high standard and, where practical, designed to limit the opportunity for vandalism.

5.13 Boundaries and Fencing

The Council will reach an agreement with adjoining land owners on the type and standard of fencing and the contributions made by each party. On occasion, fencing may not be required. Required contributions may be financial or made through the provision of materials or labour.

There may be some situations where Council is not required to contribute to a boundary fence, for example if there is an existing fencing covenant.

Consideration will be given to the needs of the Council and the adjoining land owner. The characteristics of the reserve and the land use of adjoining neighbours will also influence Council's decisions in relating to fencing. Decisions relating to fencing will be formalised through a fencing agreement.

Where it is impractical or undesirable to erect a fence on a reserve boundary, the fence may deviate from the legal boundary with the agreement of the adjoining land owner.

5.14 Toilets

A district-wide approach is taken to the number, location and standard of public toilets. Proposals for new toilets are considered against criteria which take into consideration requirements and availability across the District.

5.15 Play Equipment

All new playgrounds and replacement of playground equipment will comply with the Building Act 1991, the Resource Management Act 1991 and the New Zealand Safety Standards NZS 5828:2004 or subsequent updates.

The design and location of each playground will reflect the visual character of the reserve and consider environmental factors such as the orientation of the sun, shelter from the wind, visibility and disturbance to adjoining properties.

5.16 Signs and Interpretation

The placement of signs on reserves by non-Council organisations requires written approval from Council. Advertising signs are subject to the Southland District Plan.

Council will ensure that new or replacement signage identifies places that are of cultural significance in accordance with the Ngāi Tahu Claims Settlement Act 1998.

5.17 Electoral advertisements and hoardings

No election hoardings and signs are permitted to be placed or erected in Council controlled or owned parks, reserves and open spaces.

5.18 Pest Plant and Pest Animal Control

Pest plants and animals on Council reserves will be controlled in accordance with Environment Southland's Regional Pest Management Strategy.

5.19 Litter Control and Dumping

Litter bins may be provided on reserves at strategic locations and in sufficient numbers to meet the reasonable demands of the users. These bins will be cleared regularly to prevent overfill and spillage.

Where there are no litter bins, reserve users are required to remove all litter from the reserve. The dumping of refuse including garden waste on reserves is an offence under the Litter Act 1979.

5.20 Landscaping, Amenity Planting and Areas of Native Vegetation

Landscaping, amenity planting and vegetation management will be undertaken on reserves in accordance with Reserves Management Plans.

Any new plantings on a reserve will consider visibility and safety. The retention of indigenous vegetation and threatened plants on reserves is a priority for the Council. Where possible, existing native vegetation on reserves shall be preserved and revegetated using locally sourced native species. The use of exotic species will be restricted to areas where exotic species predominate and/or the recreational use of the reserve would be enhanced by the use of exotics (eg for shade).

The removal or damage to any tree, shrub or plant material from within reserves is prohibited without the prior written approval of the Council.

5.21 Memorials

Memorials and plaques for individuals are only permitted in locations identified in Reserve Management Plans. All memorial plantings and commemorative plaques require written approval from the Council.

5.22 Monuments, Artwork and Sculptures

Monuments, art work and sculptures must have relevance to the reserve and enhance the natural surroundings. When determining whether the placement of a monument, artwork or sculpture is appropriate, the nature of the item, the proposed location, reserve use and reserve values will be considered.

Maintenance of monuments, artworks and sculptures will be undertaken by Council staff, or contractors, unless agreed otherwise at time of construction.

5.23 Outdoor Furniture

Outdoor furniture will be appropriate to the needs of reserve users. The nature of outdoor furniture, including materials and colour will be consistent with the natural surroundings. All outdoor furniture will be approved by the Council.

Maintenance of outdoor furniture will be undertaken by the Council staff or contractors.

5.24 Network Utility Infrastructure

Reserves are often crossed by network utility infrastructure, particularly power pylons. While most of these have been in place for many years, the Council will only consider new requests to place utility infrastructure in a reserve if all alternative options have been considered.

5.25 Lighting

Lighting may be provided for walkways and parking areas in reserves. Impacts on adjoining land owners are considered in relation to ground lighting or lighting outside buildings.

Where there are sports grounds in a reserve, lighting for night time training may be considered. Controls on lighting usage may be imposed by the Council.

6. Roles and Responsibilities

Reserve users are responsible for ensuring that their use, activity, or any associated buildings or structures comply with relevant legislation, the Southland District Plan, Southland District Council Policies and Council Bylaws.

Some other documents which regulate activity on reserves are provided in the table below.

ACTIVITY	REGULATED BY
Camping	Freedom Camping Bylaw
Consumption of alcohol in public places	Alcohol Control Bylaw and Summary Offences
Sale and supply of alcohol	Sale and Supply of Alcohol Act 2012
Dogs	Dog Control Bylaw and Dog Control Act 1996
Other animals	Keeping of Animals, Poultry and Bees Bylaw
Trading	Trading in Public Places Bylaw
Unmanned aerial vehicles	Unmanned Aerial Vehicle Policy

Te Anau Entrance Signs - Retrospective Unbudgeted Expenditure

Record No: R/21/7/44209
Author: Mark Day, Community facilities manager
Approved by: Nick Hamlin, Group manager programme delivery

Decision Recommendation Information

Purpose

- 1 The purpose of this report is to provide the Fiordland Community Board with information about the production and installation of the three town entrance signs and the reason for requesting retrospective unbudgeted expenditure.
- 2 To seek approval for unbudgeted expenditure of \$7,820 to be funded from the Te Anau general reserve.

Executive summary

- 3 Funding was set identified in the 2018-2028 Long Term Plan for two projects. One was to create a Gateway to Fiordland sign (\$20,000) and the other was to create town entrance signs (\$20,992). These were programmed for the 2018-2019 financial year.
- 4 The project was undertaken by the communications team.
- 5 The project has been carried forward across two financial years, from 2018/2019 to 2019/2020 and from 2019/2020 to 2020/2021.
- 6 Through the design and costing phase for the entrance signs it was identified that the budget for the signs of \$20,992 would not be sufficient to cover the cost of the works.
- 7 Subsequently it was decided that the two projects would be amalgamated and the funds be used to cover the cost of the town entrance signs.
- 8 The community board were provided with two concept designs at which point staff approached Waka Kotahi NZ Transport Agency to get approval to install the sign at the agreed location. The response from Waka Kotahi NZ Transport Agency was that based on the construction materials for the sign it would not give approval for its installation.
- 9 In November 2019 after the local government elections staff received instruction from the board via email that they would like to revisit the project scope with the new board.
- 10 At this point the board decided to change the style of sign that would be installed and the project was re scoped.
- 11 Based on the new scope staff were advised by the communications team that the cost of the new design would be \$10,000. The budget was subsequently altered through the forecasting process with the remaining funds being returned to the Te Anau general reserve.

Recommendation

That the Fiordland Community Board:

- a) **Receives the report titled “Te Anau Entrance Signs - Retrospective Unbudgeted Expenditure” dated 9 August 2021.**
- b) Determines that this matter or decision be recognised as not significant in terms of Section 76 of the Local Government Act 2002.
- c) Determines that it has complied with the decision-making provisions of the Local Government Act 2002 to the extent necessary in relation to this decision; and in accordance with Section 79 of the act determines that it does not require further information, further assessment of options or further analysis of costs and benefits or advantages and disadvantages prior to making a decision on this matter.
- d) Agrees to approve retrospective unbudgeted expenditure of \$7,820 to produce and install three town entrance signs to be funded from the Te Anau general reserve.

Background

- 12 Funding was set identified in the 2018-2028 Long Term Plan for two projects. One was to create a Gateway to Fiordland sign (\$20,000) and the other was to create town entrance signs (\$20,992). These were programmed for the 2018-2019 financial year.
- 13 The project was undertaken by the communications team.
- 14 The project has been carried forward across two financial years, from 2018/2019 to 2019/2020 and from 2019/2020 to 2020/2021.
- 15 Through the design and costing phase for the entrance signs it was identified that the budget for the signs of \$20,992 would not be sufficient to cover the cost of the works.
- 16 Subsequently it was decided that the two projects would be amalgamated and the funds be used to cover the cost of the town entrance signs.
- 17 The community board were provided with two concept designs at which point staff approached Waka Kotahi NZ Transport Agency to get approval to install the sign at the agreed location. The response from Waka Kotahi NZ Transport Agency was that based on the construction materials for the sign it would not give approval for its installation.
- 18 Agreeing to a design, seeking approval from Waka Kotahi NZ Transport Agency and having local government elections are the main contributors to this project having to be carried forward and not being delivered on time.
- 19 In November 2019 after the local government elections staff received instruction from the board via email that they would like to revisit the project scope with the new board.
- 20 At this point the board decided to change the style of sign that would be installed and the project was re scoped.
- 21 Based on the new scope staff were advised by the communications team that the cost of the new design would be \$10,000. The budget was subsequently altered through the forecasting process with the remaining funds being returned to the Te Anau general reserve.

- 22 Agreeing to a design, seeking approval from Waka Kotahi NZ Transport Agency and having local government elections are the main contributors to this project having to be carried forward and not being delivered on time.

Factors to consider

Legal and statutory requirements

- 23 None.

Community views

- 24 The views of the community board are taken as representing those of the community.

Costs and funding

- 25 The unbudgeted expenditure will be funded from the Te Anau general reserve which has a forecasted balance as at 30 June 2021 of \$524,100.

Policy implications

- 26 The community board has delegated authority to approve any unbudgeted expenditure up to \$20,000.

Analysis of options

Option 1 - Agrees to approve retrospective unbudgeted expenditure of \$7,820 to produce and install three town entrance signs to be funded from the Te Anau general reserve.

<i>Advantages</i>	<i>Disadvantages</i>
<ul style="list-style-type: none">the total cost of the project will be covered.	<ul style="list-style-type: none">none identified.

Assessment of significance

- 27 The assessment of significance needs to be carried out in accordance with Council's Significance and Engagement Policy. The Significance and Engagement Policy requires consideration of the impact on social, economic or cultural wellbeing of the region and consequences for people who are likely to be particularly affected or interested. Community views have been considered throughout this process thus the proposed decision is not considered significant.

Recommended option

- 28 The staff recommendation is Option 1.

What's happening in your area

Community Partnership Fund

The next round of the Fiordland Community Partnership Fund closes on 30 September 2021.

Community service awards

The new community service awards process has now gone live following all community boards receiving the report outlining the new procedures and guidelines. Nominations close on 30 September. Application forms are available on the Southland District Council website here:

<https://www.southlanddc.govt.nz/assets/My-Council/Community-service-awards-application-form.pdf>

Recent funding outcomes

District Heritage Fund

Otauatu Museum & Heritage Trust – operational costs - \$7,000

Tourism Infrastructure Fund

Minister of Tourism Stuart Nash recently announced that Southland District Council will receive \$3,739,125 for projects in Fiordland and Stewart Island/Rakiura from the Tourism Infrastructure Fund.

The Fiordland area will receive \$1,100,000 to upgrade the boat ramp, toilets, and carpark at Pearl Harbour, Manapouri and to upgrade the access road and toilets at Fraser's Beach Manapouri, \$1,500,000 additional funding for the Te Anau wastewater project and \$440,000 for the replacement of two boat ramps in Te Anau to meet the required standards and a new toilet for Bluegum Point.

Stewart Island/Rakiura will receive \$99,125 on behalf of DOC, to build a viewing platform at Observation Rock, and \$600,000 for replacement of Ulva Island Wharf.

Council and Great South staff worked collaboratively to collate the extensive information required, in a short timeframe, to submit the applications to MBIE for consideration.

Local initiatives

Tongan Language Week 2021

Staff have been working alongside members from the Invercargill Tongan community to celebrate Tongan Language Week at Te Anau School on 3 September. There will be Tongan dances and an exhibition of arts and crafts and a showcase of Tongan costumes. This initiative is being done through Council's Welcoming Communities programme.

What's happening outside your area

District/regional Initiatives

Milford Opportunities Project

The Milford Opportunities Project masterplan has been approved by the Governance Group. The Ministers of Tourism and Conservation jointly took a paper to cabinet on June 28. The public launch of the masterplan will be 28 July.

The government made a pre-budget announcement of a further \$15 million in funding for stage 3 of the project which includes the detailed planning, investigation and development of business cases to implement the masterplan.

Macular Degeneration New Zealand

Staff have been contacted by Anna Crane who is the general manager of Macular Degeneration New Zealand. They are a relatively small national charity that was formed 11 years ago to raise awareness and educate people about age related macular degeneration which is the leading cause of loss of vision in New Zealand. One in 7 people over the age of 50 have macular degeneration but in New Zealand only 60% of people in this risk group are aware of the condition and fewer will be aware of the measures that can be taken to reduce the risk of losing sight.

This is a statistic that they are keen to change and in 2021 they would like to undertake a project focused in the Southland District, which they hope will create a conversation within communities in the region raising awareness and supporting people with macular degeneration. For this project to be successful they recognise that it will be very important to partner with locally based community organisations (and others in Southland).

If you would like to know more about them click on this link to their website, <https://www.mdnz.org.nz/>, or you can contact Anna direct on 09 307 2103.

Welcoming Communities

It has been reported by police and other stakeholders that there are a significant number of newcomers in the Southland region who do not have driving licences. Many are driving illegally, and some are not driving at all which is resulting in isolation from their local communities. We have identified this is particularly an issue for those living in the Southland District living and working on dairy farms. A number of reasons have been identified for this including cost, language barriers, and limited testing stations.

Southland District Council have partnered with Invercargill City Council, Gore District Council, and Southern REAP to lodge a funding application for a pilot-extension to Southern REAP's "drive my life" programme that specifically focuses on supporting Southland's newcomers to obtain their learners, restricted, and full driving licenses. The funding application was submitted to the Ministry for Ethnic Communities "Ethnic Communities Development Fund". We are waiting to hear of the outcome.

Leadership Academy

The latest Leadership Academy, facilitated by Commerce South in partnership with Council, commenced on Tuesday, June 8. The academy attracted 12 participants and is being held at the memorial hall in Lumsden.

Participants have listened to a community champion and a guest speaker each week. The purpose of the community champion (who are all relatively local) is to provide a brief overview of their own leadership journey whilst the guest speaker gives a presentation about specific leadership issues such as leading through change, values-based leadership, governance vs management etc.

The final session and graduation took place on Tuesday, 20 July.

The next Leadership Academy in partnership with Council is scheduled to be held in Otautau in June 2022.

What's coming up?

Strategy and Policy

Bylaw and policy work

Staff in the strategy and policy team are in the early stages reviewing a number of documents. These include:

- The Open Spaces Strategy and Reserves Management Policy – it is intended that pre-consultation with stakeholders will begin in August
- The Stewart Island/Rakiura Visitor Levy Bylaw and Policy - it is intended that pre-consultation with stakeholders will take place in July and August
- The Delegations Manual – staff have begun reviewing the manual and identifying possible changes
- Alcohol Control Bylaw - it is intended that pre-consultation with stakeholders will take place in August
- Smoke Free Open Spaces Policy – it is intended that pre-consultation with stakeholders will take place before the end of this year.
- Protected Disclosure policy
- Contract Management Policy
- Feedback Policy.

Council's Asset Management Policy was adopted by ELT on 6 July, and the new policy is now in effect. Staff will present the policy to Council for its information in August 2021. The Fraud Policy was adopted by Council on 23 June and is available to view on Council's website. The leadership team adopted the revised Sensitive Expenditure Policy this month, completing the review of this policy.

Corporate risks

Following annual review by ELT, on 23 June 2021, Council adopted the revised top strategic risks which will form the quarterly risk register going forwards. Risk management reporting has begun for the September 2021 quarter. Staff and ELT are currently updating the risk register and the quarterly reports will be presented to the Finance and Assurance Committee and Council when they meet in September 2021.

Long Term Plan

Following Waka Kotahi NZ Transport Agency's announcement that Council would not receive full amount of funding requested, staff were required to make amendments to the proposed roading works programme as part of the final version of the Long Term Plan document. On 29 June 2021, Council adopted the Long Term Plan 2021-2031. The LTP sets out Council's plan for the next 10 years, how this contributes to the strategic direction, the costs and how they will be paid for, and how we will measure our performance as an organisation. The LTP is our contract with our community for the services that we will deliver. The LTP is available on Council's website to view or download, and printed copies of the LTP are available to view in area offices in the District.

Annual Report

Work on the development of the 2020/2021 Annual Report has now began. Staff are working through the year end budget process and the key performance indicator results. Staff are formulating the key highlights, projects and budgets for the year with the Annual Report on schedule to be completed by the end of October 2021.

Interim performance report

The final interim performance report period ends 30 June. The results of this will then go into the Annual Report 2020/2021.

Governance and Democracy

Elected Members Remuneration and Reimbursement Policy

On 23 June Council adopted the Elected Members' Remuneration and Reimbursement Policy. The policy came into effect on 1 July 2021 and is available on Council's website.

Stakeholder updates

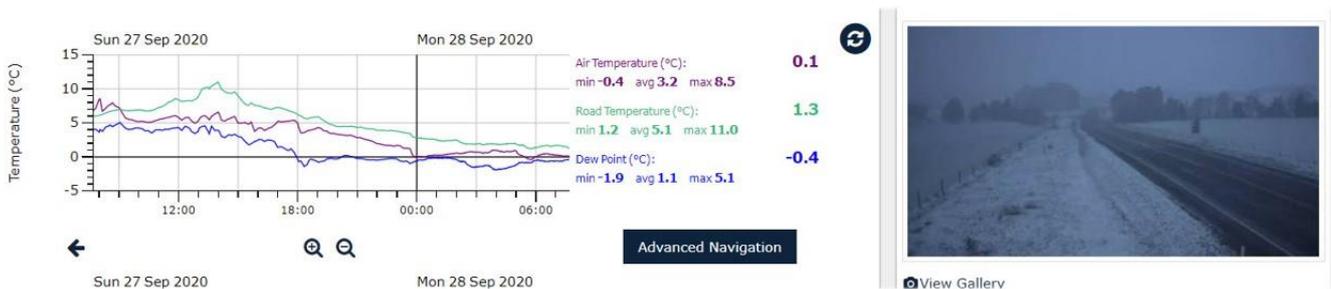

Highways South

Watercutting is currently taking place across the Southland state highway network. This is done in those areas where skid resistance is low to improve the texture (and therefore skid resistance) of the pavement. We appreciate your patience while this takes place.

We have had a couple of snow events so far this winter, winter is well and truly here. CMA is applied both before expected overnight frosts and in response to unexpected road icing. We use this as a preventive treatment to stop ice forming, applied overnight ahead of frost(s), and also use it to break up ice/ snow during snow events. It is great for urban areas as it doesn't block sumps. CMA can be easily confused with a urea spill – below is an image of what it looks like once spread on the pavement.

We have weather stations which send live feeds through to us on SH6/Jollies Hill, SH94/Gorge Hill and SH93 at the Owaka turn-off. This year we have also installed one on SH6 north of Athol. The feeds from these cameras allow us to closely monitor changing conditions and react accordingly. An image of the data we receive is shown below. From the 1st May through to the end of September we supply a regular weather forecast to all suppliers/staff/stakeholders – if anyone would like to be included in this email please contact us at SNOAdmin@southroads.co.nz.

There are some events coming up which may impact some of our communities: The Southern Scooter Challenge will be passing through towns from Bluff to Queenstown on 4 September with 150 riders taking part; the Junior Tour of Southland in October and the Tour of Southland in late October/early November.

Our crews have been busy on the network completing flanking and drainage work and also felling dangerous trees before winter makes this work unachievable and also before the rains we traditionally get in spring. New ice/grit signs have also been installed throughout Southland recently.

Our flax removal and relocation programme was a success with all flaxes which were removed for safety or drainage reasons relocated to various private landowners or to schools and organisations throughout Southland. A video showing some of the work involved will be available very shortly if the boards would like to view this.

We are still getting lots of wandering stock issues on the roads, and lately wandering deer in Northern Southland particularly. If the boards could please encourage farmers to check fencing and ensure stock are well contained, particularly before spring, we'd be appreciative.

Highways South has recently purchased a number of satellite phones in the case of a Civil Defence emergency – ensuring lines of communication can remain open with the relevant authorities during events.

Remedial work is programmed at the slip at Ohai/Crawford Tunnel, we are ready to start as soon as we have the required approvals from KiwiRail.

A section of SH96 (Winton – Wreys Bush Highway) just north of the Hundred Line Road, continues to be temporarily speed restricted for the safety of road users over the next few months. The pavement is continuing to fail and is planned as the first rehabilitation prior to Christmas. We appreciate your patience in this area over the next few months until we can reconstruct this stretch of state highway.

Unfortunately, we are still having too many incidents of speeding through worksites putting workers at risk. We'd appreciate the boards' support in encouraging drivers to slow down and adhere to the temporary traffic management in place at these worksites.

Operational Report for Fiordland Community Board

Record No: R/21/7/43897

Total	\$0	\$0	\$0	\$47,502	\$65,661	\$65,661	\$0	\$0	\$0

The income in the administration cost centres includes interest on reserves that is only calculated at year end. This will be included in the final end of year reports to be presented at a future meeting.

Manapouri's operating costs are over budget due to the costs of Darwin's barberry control paid to DOC. Stormwater, beautification and street works are under budget due to low amounts of reactive maintenance being required so far this year. The negative cost in streetworks Manapouri is due to the correction of an expense that was accounted for in the 2019/20 year, but never eventuated.

In beautification, Manapouri, the lower income and expenditure is due to a delay in the project to create easements to allow access to new track from View St. carpark and a related development contribution. The actual costs in the capital section of beautification Manapouri relate to a handrail which is currently in progress.

Te Anau's expenditure is down \$115,158 YTD. The operational costs are down due to general projects and miscellaneous grants not being fully utilised this year. Unspent grant expenditure will be transferred to the reserve at year end to be available in future. The stormwater and street works business units are under budget due to limited reactive maintenance being needed to date. The sports ground is under due to lower than budgeted general maintenance and mowing costs. The capital costs in the street works business unit relate to footpath works on Aparima Drive. The capital costs in the stormwater business unit relate to Mokonui Street stormwater improvements which are being funded by the Central Government stimulus package.

Manapouri Airport costs are down due to the effects of COVID 19 and a decision to delay some non-essential work that wasn't needed to maintain certification.

Fiordland costs relate to the board members' salaries and miscellaneous grants. Unspent grant expenditure will be transferred to the reserve at year end to be utilised in future.

Reserve Balances

RESERVE	30 JUNE 2020	BUDGET 30 JUNE 2021	FORECAST 30 JUNE 2021

Information

Chief executive update

Three waters reforms programme – support package summary

1. The government has developed, in close partnership with Local Government New Zealand, a package of \$2.5 billion to support the sector through the transition to the new water services delivery system, and to position the sector for the future. This package will ensure that local authorities are supported through the transition process, the financial impacts of reform are managed and importantly, all councils and communities will transition to the new system for delivering three waters services in a better position than where they are now.
2. There are two broad components to this support package:
 - \$2 billion of funding to invest in the future of local government and community wellbeing, while also meeting priorities for government investment (the “better off” component)
 - \$500 million to ensure that no local authority is financially worse off as a direct result of the reform (the “no worse off” component).
3. The better off component of the support package, which comprises \$1 billion Crown funding and \$1 billion from the new water services entities, is allocated to territorial authorities on the basis of a nationally consistent formula that takes into account population, relative deprivation and land area. This formula recognises the relative needs of local communities, the unique challenges facing local authorities in meeting those needs, and differences across the country in the ability to pay for those needs. Territorial authorities will be able to use this funding to support the delivery of local wellbeing outcomes associated with climate change and resilience, housing and local placemaking.
4. The no worse off component of the support package comprises an estimated \$500 million contribution from the new water services entities to ensure that no local authority is in a materially worse position financially to continue to provide services to its community as a direct result of the reform. This includes an up to \$250 million provision to support councils to meet the unavoidable costs of stranded overheads associated with the transfer of water assets, liabilities and revenues. The remainder of the no worse off component will be used to address adverse impacts on the financial sustainability of territorial authorities.
5. Initial analysis indicates that the vast majority of councils are likely to be financially better off through the reforms. Councils likely to suffer adverse financial impacts are primarily those with a low level of water debt to revenue and a high level of non-water debt to revenue. The Department will undertake further work with councils during the transition period to understand the potential financial impacts at a local level, including through undertaking the associated due diligence process.

6. In addition to the support package, the Government expects to meet the reasonable costs associated with the transfer of assets, liabilities and revenue to new water services entities, including staff involvement in working with the establishment entities and transition unit, and provision for reasonable legal, accounting and audit costs. There is an allocation for these costs within the \$296 million tagged contingency announced as part of the 2021 Budget Package for transition and implementation activities. This allocation is additional to the \$2.5 billion support package.
7. The Department of Internal Affairs is continuing to work with Local Government New Zealand to develop the process for accessing the various components of the support package outlined above, including conditions that would be attached to any funding. More information and guidance will be made available in the coming months.
8. The proposal Southland District Council will get is \$19,212,526.

(As sourced from the DIA website)

Environmental Services

Animal control

9. The many improvements to the dog registration process has resulted in the process running far smoother for staff this year. Some significant problems from the previous year, such as web payment issues, have been resolved.
10. The team ran a successful internal training session for field staff in our building solutions and resource management teams.

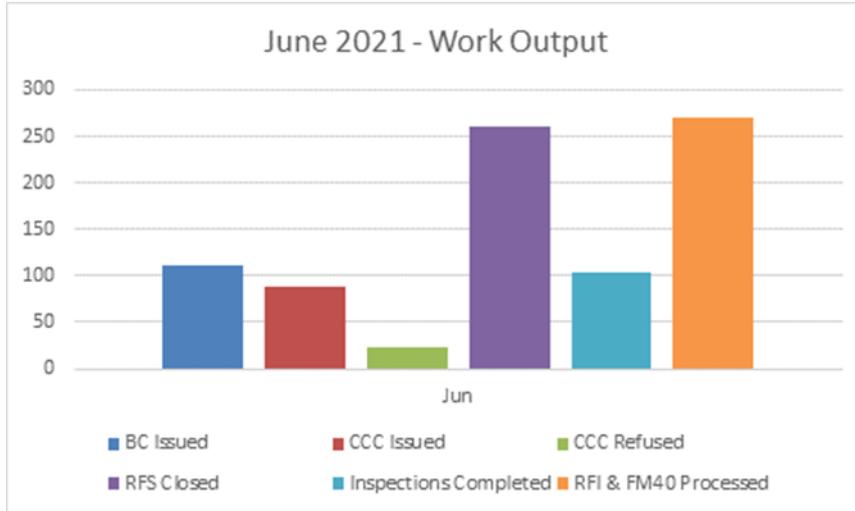

Environmental health

11. A mediation is scheduled through the Environment Court, in relation to the abatement notice that was appealed for rooster noise.
12. Work has started on introducing online applications for alcohol licensing, starting with manager's certificates.
13. Staff are preparing for the alcohol hearing for a proposed bottle store in Riverton, scheduled for 28 July.

Building

14. Council achieved 100% compliance for code compliance certificates and 99% for building consents issued for the month of June 2021. The one BC that exceeded timeframe was from human error and not from an inability to comply with timeframes. Council continue to receive a high volume of consents with 131 consents received during June 2021 (11% more than were received in June 2020).
15. For the year end summary, the team received 1,010 BC applications during FY20/21, 11% higher than FY19/20.
16. 18 June 2021 Council submitted on the Licensed Building Practitioners Regime Consultation to MBIE which was the due date for this submission.

17. The new fees structure being implemented from 1 July 2021 was posted on the website the afternoon of 29 June 2021. This has received an immediate response of dissatisfaction from the industry and community who have been questioning the reason for an increase of fees.

June 2021 – Building Consents Received

Primary Property Hk Ey → Property Ward	Count	Sum of Application Val...
Mararoa Waimea	39	NZ\$4,233,122.00
n/a	1	NZ\$10,000.00
Oreti	31	NZ\$4,053,766.65
Stewart Island Rakiura	1	NZ\$750,000.00
Waiau Aparima	33	NZ\$3,647,545.00
Waihopai Toetoe	26	NZ\$1,798,030.00

Resource management

Resource consents

18. The volume and complexity of resource consent applications received remains high over the first six months of the calendar year. Two applications are about to be publicly notified in the coming weeks being the proposed Bromoore Gold mine near Waikaia township and the retrospective resource consent application for the clearance of indigenous vegetation and earthworks associated with the re-development of the Manapouri Boat Club boat ramp in Manapouri. A joint resource consent hearing with Environment Southland is was held on 21 July for a new Fulton Hogan Quarry in Fairlight. A decision is expected in Mid-August. It's anticipated that the volume and complexity of consent will continue of the next six months.

Environmental Policy

19. Work is continuing on the review of the landscapes chapter of the Operative Southland District Plan 2018. It's anticipated that this work will continue into the new year prior when the plan change will be

notified. The District Plan effectiveness report has been completed and was presented to the Regulatory and Consents Committee on 14 June. It made a number of recommendations to better improve the performance of the District Plan.

Legislative reforms

20. The Exposure Draft for the Natural and Built Environments Act was released in this reporting period. This is one of the three pieces of legislation proposed to replace the RMA. Submissions close on 4 August and Councils is working on an individual submission and a joint Otago Southland submission. The proposed Act is significantly different to the Resource Management Act and will mean wide-ranging changes to environmental management.

Knowledge management

21. LIM numbers remained steady for the month of June with 42 LIM's being lodged. We kept our 6 day average turnaround which is promising. In June we processed 167 property file requests which averages 8 per day. LIM's and Property files were moved to E-pathway this month which has reduced some of the manual processing required and now allows for improved reporting.

Services and Assets

Forestry (IFS)

22. Purchase and planting of seedlings in Waikaia for 2020/2021 season is complete.
23. Remaining silviculture operations across the estate were reprioritised to Gowan Hills.
24. Draft valuation for FY20/2021 year was received.

Around the Mountains Cycle Trail

25. Six yearly structural inspections of the bridges on the trail are complete with minor items identified. These have been instructed for action by the maintenance contractor.
26. Pre-development project work to address the Centre Hill erosion has commenced and SDC is continuing to work with Landcorp to identify suitable solutions.
27. Initial draft of proposed Around the Mountains Cycle Trail trust deed has been drafted. Formation of trust is pending decision from Council. An expression of interest for interested trustees was advertised and a healthy response was received.

Te Anau Manapouri airport

28. Due to a backlog of work at CAA toward the end of 2020, and therefore a delay in the Safety Management System (SMS) audit, an exemption to the SMS was obtained through to 30 September 2021. SMS and certificate renewal audit is scheduled for 25 August and is on track.
29. Investigative test pits and ground water monitoring is being planned in preparation for design and construction phases of runway surface renewal in FY2021/2022 and FY 2022/2023. Offer of service has been accepted for professional services and this work has commenced.

Property

30. Work that is underway is the rent review and renewal of Riverton Harbour Endowment farming leases which happen every 21 years. This is at the stage of Council valuers completing their task to advise the Lessees of the new rentals and the new rental amounts have been sent to the Lessees. The draft leases with Landcorp for the lands at Kepler are at their final stages awaiting resolution of water allocation and flows being confirmed.
31. Numerous internal enquiries regarding what is allowed on council property are being received and processed. This is an important role given the many differing land status, to ensure the asset managers are undertaking work on Council property and in accordance with the many restrictions that may, or may not, exist with each status.

Strategic water and waste

32. Downer has been performing well despite a high workload recently, due to several mains failures. Downer has completed a large number of minor projects during the 2020/2021 year. The 2021/2022 programme is well underway.
33. We are still tracking very well with close out of our RFSs. Council's Antenno app is being configured to allow notification of shutdowns and disruptions to properties.
34. We are working with the customer service team to ensure requests are directed to the appropriate contractors.

Resource consent renewals (wastewater)

35. In addition to each specific community scheme proposal inflow and infiltration (I/I) work has also been programmed to coincide with these works.

Wastewater scheme upgrade	Description	Capital budget
Balfour WWTP and consent	Reconsenting is expected to have challenges with the disposal options being limited due to soil structure in close proximity to the existing treatment plant. A working group will be formed shortly to work through this project.	\$1.5 million
Edendale/Wyndham WWTP and consent	A strategy has been proposed and this project will pick up momentum shortly with reconsideration of discharge methodology.	\$3.0 million
Manapouri WWTP and consent	Consenting process is underway with the inaugural Working Group meeting held in June.	\$4.0 million
Riversdale WWTP and consent	Resource consents have been lodged and a notified process is now underway. Land acquisition proceedings are well-developed.	\$2.6 million
Stewart Island disposal field	Disposal field upgrade design has been completed and will be constructed later this year.	

Winton WWTP and consent	Progress has been put on hold while an alternative solution is being investigated and input from Environment Southland is sought. A revised strategy is being reviewed. It is expected that community engagement will be undertaken in early September.	\$25 million
-------------------------	---	--------------

Stimulus

36. Work continues with the Stimulus programme, and 2020/2021 LTP capex programme packages with 10 projects completed, another seven underway.
37. There are five projects currently under design and four projects with completed design awaiting allocation to one of the panel contractors.
38. We are confident that the programme will be delivered on time, in line with our forecasted programme as we are using the Stimulus contracting panel (made up of four local contracting companies) for our delivery. Our use of external professional resource for quality assurance, quantity surveying/ price evaluation and contract engineering is proving efficient and valuable.

Project delivery team (PDT)

39. The 2020/2021 works programme is now complete with circa \$42m completed but still to be finalised in the year in process.
40. Carry forwards are being worked on now and will be incorporated into the 2021/2022 works programme.
41. Te Anau Waste Water is well on track for commissioning and operating in the coming months.
42. Construction has begun on the Winton library project.
43. The 2021/2022 works programme is now in place and works is starting to be sent to market for pricing.
44. Core improvement work is well underway with the development of a cost management workbook being developed.

Community facilities

45. The team is focused on the end of year process and wrapping up any unfinished projects.
46. Capital works projects are progressing however contractor availability and material supply has been hampering progress on some of these projects. This is a risk that may impact on our ability to deliver the new year's capital works programme.
47. The locally funded project definitions for the new financial year have all been taken to the nine community boards for approval.
48. The team is now in a position where we can start the procurement process for the new financial year's capital works programme.
49. We are working with the other teams within the Services and Assets group and consultants to assess our Asset Management maturity as well as defining standard concept designs.

50. Some of focus will now shift to looking at preparing for the 2022-2023 financial year's capital works programme.

Strategic transport

National Land Transport Plan

51. The transport team have now had time to work through some of the detail and likely impacts resulting from the reduced funding approval received from Waka Kotahi NZ Transport Agency.
52. As previously indicated the reduced funding will reduce the volume of renewals work originally planned for the next three years.
53. The biggest impacts are in the bridges and pavement rehabilitation area. The consequences are that for bridges already closed, these are now likely to remain closed over the next three years, and for the sealed road network more temporary speed limits will likely be required to deal with the increase in smooth road surfaces.
54. While not a large dollar value from a district wide context, footpath funding and particularly footpath renewal funding has seen a significant reduction from Waka Kotahi NZ Transport Agency. As this activity is locally funded by each township, it will likely have a significant impact on the volume of works able completed particularly in the renewals area. There is also the likelihood that that for some townships no Waka Kotahi NZ Transport Agency funding will be available for renewals works.
55. The transport team are currently reassessing and re-prioritising the footpath programme from a district wide perspective to determine how best to manage the limit Waka Kotahi NZ Transport Agency budget available and will be reporting back to community boards on the individual impacts of the reduced funding from Waka Kotahi NZ Transport Agency.

District wide roading programme

56. The end of the financial year has also seen the end of the three-year funding period for Waka Kotahi NZ Transport Agency. Over the three-year period a total of just under \$85m was spent across all aspects of the district wide roading programme.
57. This includes a little over \$3m of emergency repairs work as a result of three significant flooding events but excludes any expenditure on special purpose roads which in total was just under \$4m.
58. The pavement rehabilitation survey and design works are progressing well for the 2021/2022 seasons with the first draft of tender documents received mid-July. The first tender is on track to be released to market by the end of July.
59. The short-term bridge renewals programme has been reassessed in line with the reduced Waka Kotahi NZ Transport Agency funding approval. Pre-procurement work is well advanced for the next round of bridges with tender documentation being compiled ready for release to market.
60. A condition of funding from Waka Kotahi NZ Transport Agency for bridges funding is that a Present Value End of Life Analysis (effectively a mini business case) has to be approved for each bridge. These have been completed and sent to Waka Kotahi NZ Transport Agency for their official approval.

Customer Delivery

Libraries

61. It's been a long time coming but work is finally underway within the hallowed halls of the Winton Library. After a massive effort by library staff to sort, pack and empty a multiple decade spanning collection of stuff, our contractors have finally made it on site. Presently everything is still looking to be on track with a late November or early December reopening.
62. The long-touted library RFID (Radio Frequency Identification) project is about to kick in to gear. After a few setbacks brought on by the COVID situation in Australia we have finally received two conversion trolleys and our supply of RFID tags that will allow the libraries team to start the month-long process of converting our current barcode system to a RFID one. This project will require all hands-on deck and is hoping to be finished in time for the reopening of the Winton Library.
63. Our expanded library programming has been a success across the district with most programs and events reaching or nearing capacity at the majority of our sites. In a lot of ways this is a golden era for our programming team as we have not managed to previously provide neither this variety of services across this broad an area for as many people who are signing up for them in our recorded history. We have reached the capacity of what our small team can provide which does pose the question of if we have the resources to meet our communities demand.

Customer support

64. We answered 3720 calls during the month of June, with an average wait time of 22 seconds. As per normal for this time of year, our focus has been on dog registration, although I am delighted to report that the process has gone extremely smoothly so far this year. The changes to the forms, the process and the training that we completed prior to June have all contributed to this, along with the overall way that the team have approached it. Pleasingly approximately 63% of registrations have come via e-pathway which has definitely reduced pressure on our front of office staff.

Recommendation

That Fiordland Community Board:

- a) **Receives the report titled "Council report" dated 29 July 2021.**

Chairperson's report

Record no: R/21/7/43719
Author: Alyson Hamilton, Committee advisor
Approved by: Fran Mikulicic, Group manager environmental services

Decision Recommendation Information

Purpose of report

- 1 The purpose of the report is to provide an update to the Fiordland Community Board on activities that the chairperson has been involved since the establishment of the board on 20 November 2019. This report covers the timeframe from 2 June 2021 to 30 July 2021.

Meetings:

Those to note are as follows:

- Destination Fiordland Wind Up meeting
- Fiordland Business Association
- Gill Evans – Rural Connectivity Group
- Milford Opportunities Launch

Other matters:

- announcement of additional government funding for Fiordland as one of the five most affected regions - business advisory, advice implementation and tourism kickstart
- Te Anau entrance signs erected
- notices for events and weddings

Other updates:

- Manapouri residents
- Manapouri Wastewater treatment
- Rural
- Tourism
- Events Centre
- Fiordland Museum Trust
- Fiordland Retirement Housing Trust
- Milford Sound Trust

Recommendation

That the Fiordland Community Board:

- a) **receives the report titled “Chairperson's report” dated 9 August 2021.**
