Summary

- 1 Construction of a nine lot subdivision at 76 Walker Street has been completed. The owners, Callum William and Jody Michele McCullough have requested that a name be used for the private road within this subdivision.
- 2 The general guidelines for choosing a road name are:
 - Avoiding duplicates,
 - Avoiding similar sounding or spelling to other road names,
 - Should be easily spelt and pronounced,
 - 25 characters maximum.
- 3 The McCullough's have been instructed to email through three suggestions in order of preference to be submitted to the Community Board for approval as follows:
 - (a) Jameson Lane,
 - (b) Toi Toi Lane,
 - (c) Thunder Road.
- 4 The Board is well placed to represent community views on this issue. The subdivision is within the Riverton town boundary.
- 5 Council invites suggestions from developers and Community Board, the final decision and authority to approve names rests with Council.
- 6 The Board should advise its preferred name to Council for approval from the three options above.
