Murihiku Regional Arts Strategy 2020-2030

Record No: R/20/7/28722

☐ Decision

☐ Recommendation

☒ Information

Background

- 1 At the 11 February 2020 meeting of the Community and Strategy Committee, a report was presented with information about the Murihiku Regional Arts Strategy 2020-2030.
- 2 The committee received the report and as there are a number of actions identified in the strategy that create opportunities for Southland District the committee felt it was important that the strategy was shared internally within Council and be presented to community boards for further discussion.
- 3 Arts Murihiku is a volunteer trust formed to administer a two-year pilot programme, initiated and funded by Creative New Zealand. The programme is aimed at growing the capacity and capability of the arts sector. Based in Invercargill the area covered by Arts Murihiku also includes rural Southland, Rakiura/Stewart Island, Gore, Queenstown, the Wakatipu Basin and West Otago, aligning with the same boundaries as Community Trust South.
- 4 Current trustees are from Invercargill, Gore, Southland District, Rakiura/Stewart Island and Queenstown. The chair is Councillor Paul Duffy.
- 5 The brief from Creative New Zealand included the development of a Regional Arts Strategy as a guiding document to support the strengthening of the arts in Southland communities into the future.
- 6 Arts Murihiku engaged Mary-Jane Rivers of Delta Networks to carry out this work supported by an advisory group of trustees and Arts Murihiku staff. Mary-Jane had considerable experience in strategic planning particularly related to communities, including other arts strategies.
- 7 In the development of the strategy, conversations were held with a wide range of people involved in the Arts including iwi, Councils, funding organisations, event organisers, arts performers and creators across all genres as well as interested members of the public.

Setting the context of the strategy

- 8 The strategy has been prepared at a time of mixed circumstances when those from the arts and cultural sector are keen to see greater action and unity, and to build on high quality local developments that are already happening through local leadership.
- 9 It is also a time of significant challenge for the arts and culture sector with uncertainty around earthquake prone buildings and resource constraints and amid some frustration about inaction on previous strategies.

Arts and culture in Murihiku (rural)

- 10 In several rural communities throughout Murihiku community arts groups provide locally-led and relevant opportunities for arts and culture events and learning – including opportunities for

artists in residence, local theatre and music, competitions for visual artists and poetry afternoons in the local pub.

- 11 Often the events involve the whole family – starting with the children. Anecdotal comments suggest that involvement in arts and culture at a community level builds confidence and a pathway into trying other art forms outside the community. These groups reflect the strength of local relevance and energy, and have the potential for being a network of thriving arts and culture.
- 12 Mixed in with this dynamic and grounded arts and culture sector is ‘volunteer fatigue’, the changing nature of volunteering and uncertain or insufficient funding for many.

How Southlanders ‘see’ art and culture

- 13 The 2017 Creative New Zealand survey shows that a large majority of Southland residents (79%) are engaged with the arts and 81% think Southland is a great place to live.
- 14 Attendance is highest for performing arts (51%) and visual arts (43%) and lowest for literary arts (6%).
- 15 People participate most in craft and in art that create objects (23%).
- 16 The majority of Southland residents recognise a range of benefits arising from the arts. More than half (51%) agree their community would be poorer without the arts and residents agree that the arts:
 - contribute positively toward the economy (59%)
 - give young people an opportunity to express themselves (58%)
 - define who we are as New Zealanders (54%)
 - help to improve New Zealand society (53%)
 - encourage people in the region to be innovative (47%)
 - give a voice to important issues in the community (39%)
- 17 Southlanders see that arts help build understanding of other cultures, allow creative expression, and are thought provoking.
- 18 Fifty-one percent of Southland residents support public funding of the arts and 44% agree that their local council should financially support the arts. Sixty three percent of Southland residents agree that it is important that the region has an organisation that supports, promotes and advocates for the arts. Over half (52%) agreed it is important to develop an arts strategy to increase the liveability and vibrancy of Southland.
- 19 Choice, price and social isolation emerged as key barriers for engagement in the arts - 41% indicated that having someone to go with would make a big difference. The key activities people would like to see more of, are music concerts and street art such as murals.
- 20 New Zealand’s Core Cities research identified the contribution of creative industries to the ‘buzz of a place, and (its) strengthened brand and identity.’
- 21 One third of Southland residents feel that arts and culture are important to the region’s identity and that the arts in the Murihiku area encourage overseas tourists to the region. The new Destination Strategy for Southland may well provide an opportunity for arts and culture economic contribution.

Principles that guide the strategy

22 Treaty of Waitangi – Te Tiriti o Waitangi

The principles of Te Tiriti are foundational to the Arts and Culture Strategy. This strategy specifically acknowledges the relationship with Iwi, Ngai Tahu as Manawhenua and especially the Runanga of Hokonui, Waihopai, Awarua and Oraka Aparima.

23 Collaboration and Partnership

Most effective and long lasting arts and culture development happens through working together while respecting the individual drive and skills of individual artists.

24 Sustainability

The strategy supports enhancing the sustainability of arts and culture in Murihiku.

25 Inclusion

Arts and culture are for all and this strategy supports growing people's engagement in arts and culture: artist involvement, in communities, across sectors, through greater audience participation and visitor engagement.

Directions for progressing arts and culture in Murihiku

26 There were a number of consistent messages in the development of this strategy. Key messages involved growing pride in our identity as a thriving arts and culture mecca that is envied and admired, and to do this:

- it is vital to build on the strengths, assets and local points of brilliance. As one arts leader noted “there is extraordinarily good stuff happening and all good stuff starts with the heart”.
- the whole region leading together is crucial. Working across sectors and localities – connecting with iwi, business, funders, education, and conservation – and with arts and culture ‘being in the psyche’ of the region based on the arts and culture sector being strategic and unified in positioning the sector
- being artist-focused matters – creating an environment for artists to thrive in their art form
- assessing and understanding the contribution of arts and culture to the economy and quality of life
- art education is a key – starting in the schools
- capacity building, succession planning, financial sustainability and increasing young people's involvement is crucial for sustainable development, and
- there must be action – not a strategy sitting on a shelf

27 Together these key messages led to the vision and four themes of the strategy.

Vision for arts and culture in Murihiku

28 Celebrating the distinctive raw beauty of Murihiku's identity through arts and culture

Arts and creativity are:

- visible (everywhere)
- valued (know the benefits to health, well-being, community cohesion, economy)
- vibrant (diversity embraced and celebrated)

- 29 The four themes establish the main areas of focus for the region.
- toi te whenua, toi te mana: celebrate our identity
 - whakapapa: strengthen creative connections
 - taonga: arts and culture values are supported... and at the centre
 - whare toi: building today for a thriving creative future

Next steps

- 30 Investigating how the Tuatapere Te Waewae Community Board can incorporate this type of thinking into what you do.
- 31 Starting a conversation and asking the question, “Can we be more mindful of the aesthetic value of public amenities?” We have started on this journey as is evidenced by “wrapping” of new public toilets.
- 32 Building relationships and connecting with other stakeholders such as Great South, iwi, business, funders and groups/individuals within the arts community in the Tuatapere Te Waewae Community Board area.
- 33 Increasing the opportunities and instances of blending arts and other events and sectors together: eg conservation and art. A good example can be seen in the Riverton town ship with the murals on buildings.

Community Partnership Fund

The community partnership fund for each of Council's nine community boards opened on 1 July 2020. All boards have set their own criteria and closing dates with some opting to have multiple funding rounds and others choosing just one.

Further information, including copies of the application forms are available online under the community board pages on Council's website with hard copy forms being available from Council offices.

Information about the fund has also been shared to all of Council's community board Facebook pages and is receiving good levels of engagement from the community.

Several of our boards have chosen to hold meetings with their community to launch the fund locally. These meetings have met with a positive response from our communities and have been well attended.

Community board plans

Demographic information from Stats New Zealand by community board area has now been received. This information will be included in the finished documents in order to help provide context and background for the plans.

Now that all boards have agreed their vision and mission, the community leadership team will be working with the boards to determine their actions.

The vision for this board is that Tuatapere Te Waewae is an attractive, vibrant and involved community.

The outcomes are;

- a community that attracts businesses, people and visitors resulting in economic growth
- a healthy, safe and connected community with access to quality services and facilities
- a community that celebrates and protects its history and heritage.

Local initiatives

Staff are working with Tuatapere Promotions Inc. who are looking to install Flagtrax on the flagpoles that hold the Tuatapere flags. We have facilitated an upcoming visit from the Flagtrax company to Tuatapere to assess the poles in question. These particular flagpoles are not owned by SDC and are owned by Powernet.

Members from the shared pathway project have been working with Council staff to identify the ownership of key areas of land along the pathway. Staff have been working with the group to introduce themselves to potential funders to begin the conversation and build the relationship early on.

District/regional Initiatives

District Initiatives Fund

As part of the funding review process where it was decided to disestablish the Community Initiatives Fund and create the Community Partnership Fund (which is to be administered by Council's nine community boards), a separate fund is also being retained for District wide initiatives to be allocated by the Community and Strategy Committee.

The committee recently approved the criteria for this fund, the purpose of which is to support the development and implementation of initiatives within the Southland District area that are at a scale that provides benefit to the District as a whole or are of benefit to at least two community board areas. The first round closes on 30 September 2020 and the second on 31 March 2021. The total amount available for distribution over two funding rounds is \$38,080 per annum.

Stewart Island Future Opportunities

COVID-19 has significantly changed things for the project and the Future Rakiura group. As a community-led project they have re-oriented their plans to rethink its kaupapa and respond to the new challenges and opportunities facing the Island.

They have conducted a community survey, receiving 91 responses about how the community fared during Level 4, and ideas for the future of Stewart Island *Rakiura*. The results will be used to bring stakeholders and the wider community together to develop a Restart Rakiura Plan.

Future Rakiura plans to:

- develop a summary of survey results and report them back to the Stewart Island community via various mediums
- present the survey results to the community board, Stewart Island Promotion Association, and other interested groups to seek commitment to work jointly on the development of a collaborative Restart Rakiura Plan
- co-host a community workshop to engage the wider community in a planning conversation about priorities and actions for the Restart Rakiura Plan

- develop a job description and seek funding to employ a Restart Rakiura co-ordinator based on the Island
- become an incorporated society – Future Rakiura is currently working on writing their constitution
- host another hangi on Waitangi Day 2021 – (funding secured from Sanford Salmon Grant)

Future Rakiura is currently working on becoming an Incorporated Society and building strong governance foundations. It has also established a bank account. The group have also organised a “From Idea to Reality” workshop on the island on July 23, facilitated by COIN South and in partnership with Southland Chamber of Commerce and the Stewart Island Rakiura Future Opportunities Project. The strategic plan is due for delivery to MBIE in September.

National initiatives

Sport NZ Community Resilience Fund

Funding support for community based organisations to cover fixed and operational costs.

The first Community Resilience Fund (CRF) closed on 19 June. It provided support to more than 1,600 local and 300 regional organisations that are affiliated to Sport NZ national partners – for fixed operating costs in the period immediately impacted by Covid-19 (ie April to June).

Sport New Zealand has analysed what was learnt during the operation period for this fund and as a result, a decision has been made to run a second Community Resilience Fund.

It will be again be distributed by Regional Sports Trusts.

More information on the fund will be available on the Sport Southland website shortly, with the fund opening for applications before the end of August.

The new fund will be \$10m, with eligible organisations able to apply for up to \$25,000 in support.

What's coming up in the next couple of months?

Strategy and policy

Speed Limits Bylaw

On 23 June 2020, Council adopted an amended Speed Limits Bylaw. The bylaw will come into effect on 12 August 2020.

Council have made some changes to the bylaw from the draft that went out for consultation. Key changes include those listed in the following table. The other changes in the draft bylaw will be implemented.

ROAD NAME	ENDORSED SPEED LIMIT	CURRENT SPEED LIMIT
Centre Hill Road Mavora Lakes Road Mt Nicholas Road	80km/h	100km/h

Borland Road Lake Monowai Road		
Lillburn Valley Road	80km/h, 60km/h from Thicketburn campground to Lake Hauroko	100km/h
Tokanui Haldane Road	80km/h	100km/h
Sandy Brown Road, Te Anau	50km/h	80km/h
Te Anau Terrace	30km/h for entire road	50km/h
Upukerora Road, Te Anau	60km/h	80km/h
Moore Road, Winton	move the 50km/h to 100km/h change point due to the Winton walkway	100km/h
Smith Road, Lochiel	60km/h	100km/h
Lochiel Bridge Road Lochiel Branxholme Road	reduce sections within township to 80km/h	100km/h

Outside the bylaw, Council has requested that staff:

- present options to the next Services and Assets Committee meeting on what a pro-active audit on road safety around the District's schools would entail, as well as possible interim measures
- obtain feedback from the Stewart Island/Rakiura Community Board regarding reducing the speed limit on Stewart Island.

Keeping of Animals, Poultry and Bees Bylaw

Council have finished formal consultation on the draft Keeping of Animals, Poultry and Bees Bylaw. Submissions will be presented to Council on 27 August 2020.

Jetty usage on Stewart Island/Rakiura

Council are still reviewing the charging method for commercial jetty usage on Stewart Island/Rakiura. Options on how commercial users could be charged, are likely to be presented to the Services and Assets Committee in September. Staff are working on the asset management, risk management and community assistance policies.

Other policies

Council is in the early stages of reviewing a number of policies. As part of carrying out open and transparent review processes, staff are keen to keep community boards apprised of the steps being undertaken throughout the process. The policies being reviewed are:

- **The Remission and Postponement of Rates Policy** – this policy aims to provide financial assistance and support to some ratepayers and to address rating anomalies. The policy outlines a number of situations where ratepayers can apply to Council to pay less rates, or to pay rates later than would otherwise be permitted. For example, if ratepayers apply and meet the criteria, the current policy allows community or sports associations with a liquor license, and ratepayers who

own community facilities that benefit the community, to pay less rates. There are also provisions to assist people who are suffering extreme financial hardship

- **Significance and Engagement Policy** – this policy enables Council and its communities to identify the degree of significance attached to particular issues and decisions. For example, issues where there is a lot of public interest or that will have a big impact on communities in the District, will be classified as significant decisions. The level of significance impacts the internal processes and procedures undertaken by Council. The policy also links the level of significance of an issue to appropriate ways to engage and involve communities in Council matters and decisions
- **Development and Financial Contributions Policy** – this policy records how and when Council proposes to use development and financial contributions, what they fund and why. It gives developers an understanding of what they can expect to pay for a development in the District, and for what. Development contributions (DCs) are a charge on development to recover a share of the capital costs that development imposes on network and community infrastructure. Council only has the ability to charge DCs in particular circumstances. DCs are in remission in the current policy, so are not being charged. Financial contributions may be charged to offset adverse effects of a subdivision, land use or development on Council's roading or reserve infrastructure. Financial contributions are being collected under the current policy.

The current versions of these policies can be accessed on Council's website at <https://www.southlanddc.govt.nz/my-council/bylaws-and-policies-/policies/>.

There will be a formal consultation period on these policies in November 2020. The board will have an opportunity to make a submission on the proposed policies, at that time.

Governance

Council is pleased to welcome Melissa Brook as our new governance and democracy manager. Melissa previously came from Queenstown Airport and prior to this was a respected local government colleague at the ICC. Melissa is hitting the ground running with many exciting initiatives to grab hold of and "lead the way" with.

4. Local finance reporting

The financial information provided to 30 June 2020 is based on the preliminary results for the period to 30 June 2020. These results will change as final year end reviews and journals are completed, along with any amendments required as a result of the audit process (which is scheduled to occur in September/October). Examples of items that may change are: addition of expenses not included by 30 June in the purchase order system, interest on reserves and funding from development contributions.

Total	\$27,208	\$28,562	\$28,562	\$21,086	\$32,216	\$32,216	\$8,186	\$0	\$0

Income for the Orepuki Hall and streetworks business units is under budget as interest is still to be allocated to reserves. This will occur as part of the year end entries. The railway land business unit earned less income from the sale of baleage than was budgeted for the year.

Orepuki operating expenditure is \$11,130 under budget overall due to the reduced maintenance required in streetworks and stormwater drainage.

Orepuki streetworks business unit capital spend is over budget due to \$8,186 spent towards internal capital footpaths. This is the 49% share of footpath work done in July and August 2019 to the total value of \$15,801. This was funded from General Reserves.

Tuatapere - Business Units as at 30 June 2020

Overall income is \$8,980 less than budgeted. Interest has yet to be allocated to reserves as part of the year end entries.

Overall Tuatapere expenses are \$31,691 under budget: The following business units were under-budget:

There is a \$1,394 underspend in mileage/travel claims (budgeted previously to be paid to community board members), \$2,004 underspend in catering charges (due to Covid 19) and \$16,657 underspend in general project costs for the Tuatapere operating costs business unit. The Tuatapere streetworks business unit has incurred \$3,221 less street litter bin charges (there were reduced services required due to Covid 19 and the remaining budget not required) and \$3,896 less general maintenance compared to budget but incurred internal footpath maintenance charges of \$2,257.

As no application has been received from the Tuatapere Pool committee this year the business unit is under budget. Stormwater drainage is \$6,276 underspend with limited maintenance and monitoring required compared to budget. The Tuatapere Hall incurred \$1,075 less cleaning charges and \$5,423 less operating costs.

Community leadership Tuatapere expenditure is for the salaries of the community board. This is funded from the Waiau Aparima Ward reserve.

Capital costs include \$5,615 towards stormwater renewal costs for new lids in the stormwater drainage business unit which was not budgeted for and \$20,054 of playground equipment towards the project to install a flying fox at the Memorial Park playground. The remainder of this budget will be carried forward to the 20/21 financial year as the project is planned for completion in August 2020, and was delayed due to Covid-19.

Chief Executive

Three Waters

1. In late June 2020, the Department of Internal Affairs, advised councils that central government was undertaking a major programme of water service provision reform. In short, government is looking to establish a small number of publicly owned multi-regional entities to take over the delivery of the water services currently delivered by local government.
2. This was not surprising given the number of discussions across the sector that have focussed on rising wastewater standards, ageing infrastructure, the financial challenges on communities due to the Covid-19 crisis, and the CIP shovel-ready infrastructure project process.
3. The government engaged with LGNZ's National Council on this reform programme early on in the lockdown to canvas the sector's likely reaction to the proposal.
4. National Council proposed that LGNZ and SOLGM partner with the government (via a co-design process) to progress development of the policy framework within which the reforms will occur. This will ensure that the voice of communities, alongside the interests and expertise of councils, is reflected in the reform work.
5. That offer was accepted by the prime minister at the Central Local Government Forum, and the work has since commenced, the first results of this work being the announcement of the Three Waters Steering Committee.
6. The steering committee comprises:
 - **Independent Chair:** Brian Hanna
 - **Local Government:** Rachel Reese, Alex Walker, Bayden Barber, Stuart Crosby, Vaughan Payne, Monique Davidson, Pat Dougherty, Hamish Riach, Steve Ruru, Miriam Taris, Heather Shotter, Alastair Cameron, Craig McIlroy
 - **SOLGM:** Karen Thomas, Kevin Lavery
 - **LGNZ:** Jason Krupp
 - **DIA and advisors:** Paul James (Secretary for Local Government), Allan Prangnell, Richard Ward, Michael Chatterley, Nick Davis, Natalie McClew
 - **Taumata Arowai:** Bill Bayfield
 - **Treasury:** Morgan Dryburgh

7. A critical condition for LGNZ National Council was that choice is retained in the system. Put simply, whatever the outcome from the policy development process, each council must be free to choose how it meets the new drinking and wastewater standards – ie ‘opt in’ to the model offered, or by other means. That has been incorporated into the reform programme with local authorities being given the opportunity to ‘opt-in’ over the next three years. At the opt-in point local authorities will be able to access a level of stimulus funding to assist with renewal and other capital works required to upgrade water, wastewater or stormwater systems.
8. A series of national workshops are being held in late July with one being held in Invercargill on the July 30, to explain the reform programme and the requirements for local authorities to be able to access the first round of stimulus funding. This includes the execution of a non-binding Memorandum of Understanding between the Crown and the relevant local authority.
9. The policy work required to design the new entities and create the framework within which they would operate has commenced and will be progressed over the next three years. A series of joint government and local government working groups will be established to assist with this work.
10. The Ministry for the Environment is also continuing its work with the development of a proposed new National Environmental Standard for wastewater discharges and overflows, as signalled in the Action for Healthy Waterways discussion document last year.
11. To support this work Boffa Miskell, GHD and BECA have been employed to develop a report documenting current and emerging issues facing the wastewater sector in New Zealand, covering issues such as trade waste practices, climate change considerations, iwi/Māori values and land-based disposal.

Covid-19

12. At the beginning of July central government announced how the \$3 billion infrastructure fund in the Covid Response and Recovery Fund will be allocated across regions. The Southland region is to receive \$90 million with the first \$10 million being allocated to the Invercargill CBD project. Decisions on other projects that are to be supported across the Southland region will be made in coming weeks.
13. At a national level the package announced about \$210 million for climate resilience and flood protection projects, \$155 million for transformative energy projects, about \$180 million for large-scale construction projects and \$50 million for enhanced regional digital connectivity. Further detail on the projects that have been approved in this initiate stage are available on the beehive website (<https://www.beehive.govt.nz/release/infrastructure-investment-create-jobs-kick-start-covid-rebuild>).
14. The Covid-19 Recovery (Fast-track Consenting) Bill has been introduced to parliament and referred to select committee with a short ‘turn around’ for public submissions. The bill will provide the government with new, temporary (two years) powers to fast-track resource consenting and designation processes for specified development and infrastructure projects.
15. The bill enables two categories of projects, being the 17 specific projects listed in schedule 2 of the bill or projects that are referred via an order in Council/Ministerial approval process, to have access to the fast-track consenting and designation. The Environmental Protection Agency will have responsibility for coordinating the processing of these resource consents.

16. As previously reported the Ministry of Social Development is reporting weekly updates on changes in job seeker support benefit numbers. As at 26 June the Southland region was at 5.1% of the working age population, which has increased from 4% at the start of January 2020. This equates to an increase of 652 individuals. These numbers exclude migrant workers who are not eligible for jobseeker support.
17. A Local Government Recovery Reference Group has been established to provide advice and input to Government on the shaping of the central government recovery programme and ensure that it can link in with local initiatives. One of the challenges has been the fact that central Government has been moving at speed given the pending national election cycle.
18. Due to the additional pressures created as a result of Covid-19 a decision has been made, subject to the passing of legislation by parliament, to extend the normal four month statutory timeframes for adoption of local authority annual reports by a further two months. This means that all local authorities will now need to have their annual report completed by 31 December, rather than the end of October.
19. Traditionally, Council has aimed to have its report adopted by the end of September. It has become clear, however, that the auditors are not able to support this timetable this year due to the impacts of Covid-19 on workforce supply. Staff will keep Council updated on the expected reporting timeline once further information becomes available from Audit NZ.

Conflicts of Interest

20. The Office of the Auditor General (OAG) has recently released a report, **Managing conflicts of interest: A guide for the public sector**, which provides updated guidance on the management of conflicts of interest. A copy of the report is available on the OAG website (<https://oag.parliament.nz/2020/conflicts/docs/conflicts-of-interest.pdf>).
21. In parallel with the general public sector conflicts guide the OAG has also recently released an updated guide on the management of conflicts within a local government context and in particular the Local Authorities Members (Interests) Act 1968. The guide titled Local Authorities (Members' Interests) Act 1968: A guide for members of local authorities on managing financial conflicts of interest is also available on the OAG website (<https://oag.parliament.nz/2020/lamia>).
22. I would encourage elected members to read both guides as they provide useful guidance on how to manage conflicts and in particular the approach that is being adopted by the OAG that has specific legislative powers to enforce the required standards in this area.

Environmental Services

Group Managers Update

23. Council received the following thank you from Rakiura Heritage Trust regarding our museum activities. The value of the museum programme being clearly illustrated by the below comments.

“The Rakiura Heritage Trustees wish to express their gratitude and appreciation for the professional services provided by roving museums officer as we confront the complicated process of shifting our Collection from the old museum to the new one. We are also grateful to Southland District Council for funding the services which roving museums officer provides. The

meticulous planning, preparation and communication to us of the issues involved have made this huge task much less daunting for us. The roving museums officer has spent long hours sorting, packing and labelling many of the most fragile items in the collection. Her comprehensive knowledge of our collection and of issues relating to local history are contributing in a most valuable way to the interpretation and presentation of topics in the new exhibition. We are conscious that this work involves regular, long periods away from her own home and her own life and we appreciate the sacrifices she makes on our behalf. On a personal note, I am most grateful for the support and advice provided to me as I work my way through a museums study course. As a rank amateur, I have had much to learn and the roving museums officer has made the process effective and enjoyable. Sincerely. (Raylene Waddell, minutes secretary, Rakiura Heritage Trust)''.

Environmental Health and Animal Control

24. June is the busiest time of year for dog control, with dogs needing to be re-registered by 1 July. Along with a strong focus on encouraging dog owners to register online, another focus this year is ensuring that new dogs are classed correctly first time; for example ensuring working dogs meet the legal definition of working dogs.

Resource Management

25. Covid-19 has not noticeably affected incoming workloads. Incoming resource consent applications remain consistent with the same period in 2019 and if anything the volume of incoming building consents and customer enquiries have increased during and after lockdown. There has also been a vacancy within the team which has impacted on getting consents issued within timeframes.
26. Dark skies plan change for Rakiura – The decision on the Council initiated plan change has been finalised by the committee and the decision will be released in the next few weeks. The decision is subject to appeal, if no appeals are received the plan change will be made operative by Council and the rules will have legal effect.
27. Up until the Alert Level 4 restrictions coming into force, ongoing policy focused work was occurring on the regional work streams for Climate Change, Biodiversity, Landscapes and Natural Character. It is unclear in a national space what impact the Covid-19 pandemic will have on anticipated national direction as government was signalling significant changes were going to be gazetted prior to the election. It is expected that the national policy statements on urban development and highly productive land will progress before the election. The majority of Council's policy work in this space still needs to progress due to it already being a legislative requirement but the timeframe to deliver may vary.
28. Council has endorsed a report to bring forward the review of the landscapes section of the District Plan. Work is now underway to understand the unique nature of Southland's landscapes, cultural values and local areas of significance. There are a number of pieces of work that will inform a review and also a number of conversations with communities and land owners. It is anticipated that a plan change will be notified in the middle of 2021.

29. Council was part of the territorial authority reference group providing feedback to the Ministry of the Environment on the proposed National Policy Statement on Indigenous Biodiversity and the proposed New Zealand Biodiversity Strategy.
30. Consultation on the NPS for Indigenous Biodiversity closed in March 2020. Council submitted stating that in Council's opinion, achieving the requirements of the statement will require a significant body of work identifying potentially Significant Natural Areas, mapping them and revising rules within the District Plan to protect and enhance them. It is anticipated that there will be a significant cost associated with this work. There is estimated to be 1.7 million hectares of potentially significant biodiversity which equates to 57% of our district. Approximately, 94,000ha of this area is indicated to be on private land. Council has provided input into the LGNZ submission and SDC is one of the case study councils forming part of that submission. It was anticipated that the National Policy Statement will likely be gazetted prior to the general election in September but this has been delayed until approximately February 2021.
31. Resource consent data for previous few months:
 - April - 27 applications received, 15 decisions issued
 - May – 28 applications received, 16 decisions issued
 - June – 22 applications received, 26 decisions issued.

Community and Futures

Strategy and Policy

32. The Annual Plan 2020/2021 was adopted by Council at their meeting on 23 June 2020. The online version is now available on the website with the printed version to follow shortly.
33. The Annual Report period is now underway and due to be completed by 21 October 2020.
34. The Long Term Plan is entering the final year of the process. First drafts of the activity management plans are due for completion at the end of June and key documents, the draft infrastructure and financial strategies are currently being developed and intended to have initial discussions with Council in August 2020. The long term plan process will continue to ramp up over the next six months as all the pieces come together to produce the draft Long Term Plan and consultation document in time for public consultation in March 2021.

Services and Assets

Group Managers Update

35. As part of the activity management plan and works programme development process, activity managers will be reconnecting with each of the nine community boards to discuss their locally funded activities and priorities. These discussions will be occurring in September as a follow up to the activity workshops run in May and June. These sessions also provide another opportunity for Community Boards to raise any additional priorities / projects for integration into the 10-year works programme.

36. The 30-year Infrastructure Strategy is nearing completion and is planned to be presented to Council for review and approval in the coming months alongside the activity management plans and LTP budgets. There has been a focus on ensuring strong and clear connectivity between these work streams.
37. Another area of focus is closing out and finalising the capital works programme for the previous financial year and confirming the works programme for the new financial year. The team is confident in their ability to deliver the scope and scale of this programme.

Forestry (IFS)

38. Forestry services are not considered an essential service. As such, the maintenance of Council's forestry portfolio was put on hold through the Covid-19 lockdown period. Under Alert Level 3 and 2, onsite operations have resumed. The bulk of pruning and thinning operations in Gowan Hills that were deferred due to Covid-19 were completed before the end of June. Planned planting operations in Waikaia were also completed before the end of the financial year.
39. Harvesting operations in Waikaia are planned for the month of July and have a forecasted return of \$932k.

Around the Mountains Cycle Trail

40. Two applications have been approved by MBIE which cover funding of repairs relating to the February flood event (\$379,793) and funding of the cycle trail manager position (\$45,000).
41. The contract for repairs to the trail, associated with the February flood event, is currently being tendered. A specialist cycle trail engineering consultant is engaged for delivery of this construction scope and planned completion is October 2020 to coincide with the new cycle trail season.

Property

42. Property disposals of the Ohai bowling club building and the Hokonui hall properties are underway as well as an agreement for the disposal of the former Stewart Island museum imminent. Finalising the updated landowner consents for the coastal route boundary adjustments and payment of compensations is also almost complete. Once this is done the legalisation Gazette Notice can be issued.

Strategic Water and Waste

Land and Water Plan Implementation

43. Environment Southland released their proposed Land and Water Plan in 2017.
44. In total 25 appeals were received by Environment Southland of which Council has identified 10, which it will join as a Section 274 party. Council has also lodged an appeal to the decision. The basis of Council's appeal, is largely around the 'non-complying' activity status on wastewater discharges to water. The latest direction issued from the Environment Court outlines a proposed path, where appeals to objectives will be heard ahead of mediation, by grouped topic on policies and rules. Evidence in support of the appeals have been filed with the Environment Court.

45. Interim decisions were released by the Environment Court in late December with a recommendation that further expert conferencing be undertaken in early 2019. A pre-conferencing hearing was held in Invercargill on 10 February after which further detail and information will be released by the Court.
46. A further hearing was held in mid-June 2020 where evidence was presented on additional information that the courts required Environment Southland to provide based on their interpretation of a number of key principals underpinning the plan. Decisions following the hearing are expected mid-July.

Project Delivery Team

47. Planning is well underway for the new 2020/2021 works programme and plans and forecasting being prepared.
48. Te Anau Wastewater (TAWW) project is nearly ready for contract award with the final contract conditions being worked through on both packages – aim is for award letters to go out 8 July.
49. The bridge works programme is progressing very well.
50. The next wave of projects is also due to start with regional footpaths, pond fencing and Te Anau watermain renewals all starting in July.
51. Final claims are being worked through with the Covid-19 shutdown and are on track to be resolved, other than the Downer roading contract which is being worked through.
52. Internal core improvement project still progressing but a big push in August.

Community Facilities

53. The community facilities team are now focused on the end of financial year wrap up and at the same time transitioning into the new year's operations and project delivery.
54. The team and the contract's delivery team have reached a milestone in signing a new contract for the delivery of the cleaning services across Council's offices and libraries. The tenders for the mowing in the three western Southland community board areas have been let and direct negotiations have started with incumbent contractors.
55. This is the culmination of a big piece of work under the guise of the Section 17A review for community facilities which also includes the mowing and gardening contracts.

Strategic Transport

National Land Transport Plan

56. A key focus area for the transport team has been the ongoing development and refinement of Activity Management Plans which includes engagement with NZ Transport Agency on future funding requirements. This has also included reviewing and agreeing Council's road hierarchy alignment with NZ Transport Agency once network road classification.

57. The team is still waiting on the release of the final Government Policy Statement on land transport 2021 (GPS) to ensure activity plans and funding requests align with the GPS strategic direction.

District Wide Roothing Programme

58. The road design for the District wide pavement rehabilitation programme for 2020/2021 season is currently being completed with the first tender on track for being released to market in July.
59. The resurfacing contract for the next three rehabilitation projects is out to market and closes in early July with the aim of having evaluation completed by the end of July.
60. The work involved in the contracts includes; texturising of pre-seal patching, supply and spraying of bitumen, supplying, placement and rolling of sealing chips and pavement marking.
61. The team have also been carrying out the necessary preparation work for the implementation of the new speed limits across the district following the adoption of the speed limit bylaw by Council in June.

Customer Delivery

Group Manager's Update

62. The change to Alert Level 1 sees a significant return to the usual level of business for many of our activities. We welcomed Sandra McLean, customer support manager, to the team and launched a new online lodgement tool for request for service via our website and mobile phones. Without any marketing, we have seen the community adopt the tool and over 10% of requests came via mobile phones. This complements the other support alternatives we have available to customers.

Libraries

63. Alert Level 1 has seen a return to business as usual within our library service. We have returned to our regular scheduled programming and services and have also continued to incorporate a home delivery and call and collect option from some of our branches to help provide additional service to those in our community that needs it. School holidays are in full swing and our holiday programme has already been popular. Staff have been very busy with this year's dog registration process, the online applications being welcomed by some customers, and a source of frustration for others who have experienced issues.
