Wyndham Hall - Interior repaint

|---|------------------------|----------------------|
|  | FINANCIAL YEAR | 2025/2026 |
| | PROJECT NUMBER | FHALL037 |
| | ACTIVITY | Community Facilities |
| | COMMUNITY BOARD | Waihopai Toetoe |
| | CHAIRPERSON | Pam Yorke |
| | COUNCILLOR | Julie Keast |
| | CPL | Karen Purdue |

DESCRIPTION

42 and 44 Balaclava Street, Wyndham
 Section 10 Blk V TN OF Wyndham
 Section 11 Blk V TN OF Wyndham
 Land is owned by SDC

SCOPE

Clear the internal areas where work is going to be undertaken.
 This project will be combined with P-10591 LED lighting in 25/26
 Look into using carpet or other acoustic tiles on the old asbestos wall.

Preparation:

1. Clean up: wash surfaces with sugar soap, remove cobwebs, flaking paint and dirt. Use bleach to remove any mildew or fungus.
2. Test internal power outlets and taps: Painters will need access to water or power for tools, depending on the type of job. Ensuring that these are all in good working order before they arrive can avoid delays and unnecessary frustration.
3. Cover areas that are not receiving decoration, floor surfaces, glass on windows etc.
4. Repair wall damage: Ready for internal commercial painting, make sure you repair any damage to the internal surfaces, such as holes, rot, decay, mould, and other common commercial property problems. Remove staples, nails and picture hooks.
5. Undertake internal repairs to ensure the wall and ceiling linings are in good condition to receive decoration.
6. Install a dado (250X50) to protect the wall linings. (Check the height, it's where the most damage is occurring to the walls from chairs and items leaning against it).

Painting:
 Apply 1 undercoat as required and 2 top coats of premium paint to interior surfaces of the hall in a color(s) that is agreed upon by the community board and the hall group. Ensure the paint specified is used and not substituted for a different brand.

Cleanup:
 All surfaces that aren't being painted are to be paint free at the end of the project.

Areas: **Need to confirm what areas are to be decorated.**

The hall committee will agree that the paint colors will be: **Need to confirm colors.**

Paint Colors:
 Skirtings and scotia
 Doors
 Ceilings
 Walls
 Window trim and revels

All paint colors and brands used are to be recorded into community facilities IPS system (include paint codes if available).

All left over paint is to be left with the hall group or custodian.

COMMUNICATION

The community board and the hall custodian will need to be informed well in advance that the work is being undertaken. The contractor will need to work with the hall custodian who manages the hall to determine the timeframe for painting work that doesn't impact on any major events scheduled at the hall

DESCRIPTION

42 and 44 Balaclava Street, Wyndham
 Section 10 Blk V TN OF Wyndham
 Section 11 Blk V TN OF Wyndham
 Land is owned by SDC

SCOPE

- Mark out exact locations of new chip-seal and gardens. Define the area on Scutari St if anything is to happen along here.
- Remove timber garden edging and install new at the correct height to receive a coating of chip seal.
- Install suitable stormwater drainage so the carpark does not flood and connect into existing services.
- Remove existing plants that are creeping onto the paths and replace with low maintenance plants
- Paint carparks onto the new seal with quality road marking paint.

| DESCRIPTION | | |
| <p>42 Tokanui Haldane Road, Tokanui Lot 19 DP 4057 Land is owned by SDC</p> <div style="display: flex; justify-content: space-around;">   </div> | | |
| SCOPE | | |
| <p>Remove and replace windows along the carpark side of the hall with new double-glazed windows. Talk to the community board and hall custodian as to what windows they want as opening ones. (these maybe need to be sliding so not to create a H&S problem). Current windows are in a steel reveal. It maybe more practicable to add timber around the opening before the new windows are installed. New head flashings to be installed to keep the hall weather tight. Finish the interior in a suitable and tidy manner.</p> | | |

| DESCRIPTION | | |
| <p>1 – 10 Pioneer Place, Edendale</p> <p>Location: This is council owned land and doesn't require a boundary survey (Lot 5 DP 5316, Lot 6 DP 5316)</p>  | | |
| SCOPE | | |
| <p>Community Housing units in Edendale, Nightcaps, Tuatapere have been identified as requiring painting.</p> <p>The trees and shrubs will require trimming back to allow scaffolding around the building.</p> <p>Preparation:</p> <ol style="list-style-type: none"> 1. Clean up: Pressure-wash off any debris, chalk, old paint residues, cobwebs, and dirt on the walls. Use bleach to remove mildew or fungus. 2. Trim Vegetation: Make sure that any plants or trees that could get in the way of your painting contractors are trimmed back to provide adequate room. Cover leaves of nearby trees and plants with plastic to prevent unsightly paint splatters. 3. Test external power outlets and taps: Painters will need access to water or power for tools, depending on the type of job. Ensuring that these are all in good working order before they arrive can avoid delays and unnecessary frustration. | | |

4. Repair wall damage: As with internal commercial painting, make sure you repair any damage to the external surfaces, such as holes, rot, decay, mould, and other common commercial property problems.

Painting:
Apply 1 undercoat as required and 2 top coats of premium paint to exterior of the units in a color(s) that is agreed upon by the SDC maintenance office and project manager. Ensure the paint specified is used and not substituted for a different brand.

Cleanup:
All surfaces that aren't being painted are to be paint free at the end of the project.

Paint Colors: Paint colors are to be uniform across the district at all community housing units.

Foundation
Doors
Hand Rails
Down Pipes
Walls
Windows

All paint colors and brands used are to be recorded into community facilities IPS system (include paint codes if available).

All left over paint is to be left with the SDC Maintenance Officer.

COMMUNICATION

The contractor will need to work with the tenants to determine the timeframe for replacement that doesn't impact on the normal use of these units.
